AMSDREGISTERED - RETURN RECEIPT REQUESTEDSUBJECT: BUREAU BADGE No. 1641

Reference is made to my telephonic conversation on this date with Inspector N. P. CALLAHAN of the Bureau.

This is to record the fact that on 11-24-50 [redacted] who is a clerk in a grocery store located at 4330 Brown Street, Dallas, Texas, telephonically contacted this office and advised that he had in his possession a badge which, according to the inscription, was the property of the Federal Bureau of Investigation. [redacted] was requested to maintain possession of this badge and informed that an agent would contact him immediately.

SA GUY B. LEONARD was immediately dispatched to interview [redacted] the latter advising that on the evening of 11-23-50 a [redacted] whom [redacted] knew, appeared at [redacted] grocery store and, according to [redacted] had been drinking some. During his conversation with [redacted] displayed to [redacted] a badge, stating that he had found this badge in the City of Dallas, some months previous. [redacted] stated that he immediately requested [redacted] to release possession of this badge to him, in order that it might be given to the Federal Bureau of Investigation.

According to [redacted] is [redacted] and is employed by the [redacted] 124

[redacted] stated that he knew of no incidents where this badge had been used by [redacted] and had heard no rumors to this effect. The badge was secured from [redacted] and it was determined to be Bureau Badge No. 1641.

An effort was made to locate [redacted] on the evening of November 24, 1950, with negative results; however, [redacted] wife was requested to have him contact the Dallas Office at 8:30 A.M. on the morning of 11-25-50. [redacted] appeared in this office as requested and advised that he was employed as [redacted]

[redacted] He stated that in March, 1950, while attending the Leo Theatre in the City of Dallas he was in the men's rest room and saw a leather case behind the men's toilet and immediately picked it up, at which time it was determined to be the badge in question. He stated

[redacted] denied that he had ever utilized the badge in any respect whatsoever. He stated that he realized he had made an error in not bringing the fact that he had found the badge originally to the attention of this office.

✓ There are no pending cases in this office to my knowledge wherein a badge of the FBI was utilized.

✓ I have had no report that any agent assigned to this office has lost a Bureau badge, and the property records reflect that this badge is not assigned to an agent of this office.

In accordance with the request of Inspector CALLAHAN, this badge and case are enclosed herewith to the Bureau.

PURPOSE

To furnish information concerning a letter dated September 11, 1950, received from Senator Millard E. Tydings. In his letter Senator Tydings stated, "On 4 April 1949 we requested a security check on several individuals with the firm of Ward & Paul, 1760 Pennsylvania Avenue, N. W., our official reporters who record the Committee hearings and meetings." The Senator thereafter pointed out the Bureau was kind enough to furnish "necessary information on this previous request," and he asked for the same check on two additional individuals. The Senator ended his letter by stating, "It will be greatly appreciated if a similar investigation can be made on these persons and a report furnished to me."

DETAILS

Supervisor Carroll Doyle who prepared the response to Senator Tydings specifically recalls this communication. It was noted that Senator Tydings stated that a previous request was made on April 4, 1949, for a "security check" on certain individuals in the firm of Ward and Paul. In his current request he stated that he would like a "similar investigation" on some additional individuals in the firm of "Ward and Place." It was noted that the firm name was given as "Ward and Paul" and "Ward and Place" on the two occasions when the firm name was used in the Senator's letter. Because of this discrepancy in the spelling of the firm's name and the ambiguity of terminology in "security check" and "similar investigation," Supervisor Doyle discussed this matter with Messrs. J. L. Schmitt, F. J. Baumgardner, and L. L. Laughlin as to how the letter should be handled.

Pursuant to instructions issued by Messrs. Schmitt, Baumgardner, and Laughlin, Supervisor Doyle requested a check of the Bureau files on "Ward and Paul" and "Ward and Place"

and requested that an effort be made to locate the Senator's letter of April 4, 1949, to determine what action had been taken with respect to the previous request.

No record was found on either of the firms' names nor was Senator Tydings' letter of April 4, 1949, located. (This letter of Senator Tydings has now been located. It is noted that neither the reporting firm of "Ward and Paul" nor Senator Tydings has been indexed.)

In view of the fact that the previous communication of the Senator was not located and no reference was found to the firm of "Ward and Paul" or "Ward and Place," the Senator's request was misinterpreted by the employees concerned as a request for a name check and the request was handled accordingly. Had the reference material been located, the request for investigation would have been presented to the Director for a decision in the matter.

PURPOSE:

Security Division

To answer the Director's inquiry relative to the details concerning the Bureau's failure to conduct an investigation of Ward and Paul Reporting Company employees requested by Senator Tydings on behalf of the Senate Armed Services Committee. To recommend administrative action to be taken against personnel involved.

DETAILS:

Reference is made to the attached memorandum from Mr. Mohr to Mr. Tolson, setting forth the inquiry made on November 28, 1950, by Mr. Herbert Adkins of the Senate Armed Services Committee, concerning a letter dated September 11, 1950, requesting the Bureau to conduct investigations of [redacted] and [redacted]

By letter dated September 11, 1950 (which is attached) over the signature of Senator Tydings on the stationery of the Senate Armed Services Committee, the Bureau was referred to a previous request for a "security check" made on April 4, 1949, on several individuals with the firm of Ward and Paul, a local reporting company. The Bureau was requested in the September 11, 1950, letter to make the same check on two additional individuals, namely [redacted] and [redacted]. The September 11, 1950, letter said that the Bureau had been kind enough to furnish the necessary information on the previous request. The letter then ended, "It will be greatly appreciated if a similar investigation can be made on these persons and a report furnished to me."

By letter dated September 19, 1950, the Bureau replied to Senator Tydings' letter on the basis of a name check on the two people involved, pointing out that there was no information concerning [redacted] in the Bureau's files and that there was no identifiable information concerning [redacted]

EXPLANATION GIVEN BY THE SECURITY DIVISION

The following explanation as to the handling of the above request on the basis of a name check rather than on an investigation basis has been given by the Security Division:

Supervisor Carroll Doyle who prepared the response to Senator Tydings, specifically recalls this communication. It was noted that Senator Tydings stated that a previous request was made on April 4, 1949, for a "security check" on certain individuals in the firm of Ward and Paul. In his current request he stated that he would like a "similar investigation" on some additional individuals in the firm of "Ward and Place." It was noted that the firm name was given as "Ward and Paul" and "Ward and Place" on the two occasions when the firm name was used in the Senator's letter. Because of this discrepancy in the spelling of the firm's name and the ambiguity of terminology in "security check" and "similar investigation", Supervisor Doyle discussed this matter with Messrs. J. L. Schmitt, F. J. Baumgardner, and L. L. Laughlin as to how the letter should be handled.

Pursuant to instructions issued by Messrs. Schmitt, Baumgardner, and Laughlin, Supervisor Doyle requested a check of the Bureau files on "Ward and Paul" and "Ward and Place" and requested that an effort be made to locate the Senator's letter of April 4, 1949, to determine what action had been taken with respect to the previous request.

No record was found on either of the firms' names nor was Senator Tydings' letter of April 4, 1949, located. (This letter of Senator Tydings has now been located and is attached. It is noted that neither the reporting firm of "Ward and Paul" nor Senator Tydings has been indexed.)

In view of the fact that the previous communication of the Senator was not located and no reference was found to the firm of "Ward and Paul" or "Ward and Place", the Senator's request was misinterpreted by the employees concerned as a request for a name check and the request was handled accordingly. Had the reference material been located, the request for investigation would have been presented to the Director for a decision in the matter.

The letter in question was initialed in the Security Division by Special Agents Carroll Doyle, J. L. Schmitt, F. J. Baumgardner, and Inspector Laughlin. It was then initialed by Supervisor Winterroud in my office and subsequently by Inspector Mohr. E.H.

EXPLANATION OF MESSRS. MOHR AND WINTERROWD

Inspector Mohr and Supervisor Winterrowd have advised that they read and initialled the outgoing letter to Senator Tydings on the basis that it was a negative name check. They both have advised that had the incoming letter from Senator Tydings dated September 11, 1950, been more carefully read, they would have observed the ambiguity in the letter which refers to a "security check" and then at the end a request for a "similar investigation". If the incoming letter had been read more carefully and the ambiguity observed, the action which was taken could have been stopped and a further inquiry could have been made as to whether an investigation of the two reporters would have been undertaken.

RECOMMENDATION:

1. While the supervisors in the Security Division who handled this matter did make an effort to locate the letter of reference, namely the April 4, 1949, letter, with negative results, there is every indication on the face of the letter from Senator Tydings dated September 11, 1950, that a previous letter involving a request of the Armed Services Committee had been received by the Bureau. It is believed that further efforts should have been made to locate the April 4, 1949, letter from Senator Tydings to determine what action the Bureau had taken and, therefore, it is recommended that letters of censure be directed to Special Agents Doyle, Schmit, Baumgardner, and also to Inspector Laughlin.

J.P. 2. Inasmuch as Supervisor Winterrowd and Inspector Mohr did not carefully read the incoming letter of September 11, 1950, from Senator Tydings and observed the ambiguity, it is recommended that letters of censure be directed to both.

3. It is recommended that the Records Section submit an explanation as to why the letter of April 4, 1949, was not located when so requested by the Security Division.

ACTION TAKEN RE INSTITUTING INVESTIGATIONS

The Washington Field Division has been instructed to immediately institute the necessary investigations of the two above-named reporters and submit the results to the Bureau within ten days.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
~~+~~ Outstanding (exceeding excellent and deserving special commendation).
~~✓~~ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
~~-~~ Unsatisfactory.
~~0~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements, as set out below.

JOSEPH LUKE SCHMIT

Mr. Schmit has been assigned as the No. 1 Man of the Internal Security Section, Security Investigative Division, since May 15, 1949, and has performed in that capacity during this rating period. His well-rounded knowledge of Bureau policy and procedure enables him to successfully direct and organize the supervision of security investigations in a most satisfactory manner. In his present assignment, he reads and approves certain types of signature mail, routes incoming correspondence, and makes decisions with regard to policy matters in connection with the various investigations handled in the Internal Security Section. He has acted as chief of the Internal Security Section on a number of occasions in the absence of the Section Chief and on those occasions has demonstrated he possesses more than the average amount of organizational and administrative ability. Through his practical approach to the day-to-day problems which arise and his clear instructions to the supervisors in the Section with respect to those problems, he has gained their confidence and respect.

Mr. Schmit is an energetic, enthusiastic, intelligent worker who has worked long hours without regard for his personal convenience when the occasion demanded. In addition to his regular duties as No. 1 Man of the Internal Security Section, Mr. Schmit assists in the reading of mail in Mr. Ladd's office. He has exercised excellent judgment during this entire rating period in connection with all of the assignments given to him. His memoranda are clear and concise and he is an excellent dictator.

On December 2, 1950, he received a letter of censure in connection with the handling of an official piece of correspondence. On January 6, 1951, he received a congratulatory letter from the Director upon the completion of his tenth year of service with the Bureau.

Mr. Schmit's physical condition is such that he can function adequately on any type of assignment and he is available

for special or general assignment anywhere his services are needed. He presents an excellent personal appearance, has a pleasing personality, meets people easily and is well liked by the employees in the Section.

In my opinion, he is qualified at this time to handle the duties of an Assistant Special Agent in Charge. He is definitely SAC material and at this time his possibilities for future advancement in the Bureau appear to be excellent.

He is entitled to be rated in the upper limits of SATISFACTORY in Grade GS-13.

Re: Mr. Schmit:

The Bureau is in receipt of the report of the ophthalmological examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on May 10, 1951.

This report reflects that you have defective vision of 20/50 in both eyes, corrected to 20/35 in the right eye and 20/30 in the left eye. As you know, the Bureau's standards require that you have corrected vision of no less than 20/20; therefore, it is desired that you take the most expeditious steps to bring your vision within the requirements and promptly advise the Bureau.

The examiner noted that you have a fair color perception; however, inasmuch as you have sufficient color perception to identify the basic colors, he did not consider this an abnormality.

The examiner noted a further fact that you have no field of vision impairment on your right field in which examination you were able to identify the colors, none and almost complete. The examiner's opinion is that you are not aware of this condition.

The report of the examiner's physical examination reflects that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in athletics or other work involving the use of physical strength.

For your further information, the ophthalmological examination afforded you in this connection was completely normal.

Very truly yours,
J. Edgar Hoover

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee JOSEPH L. SCHMIT Title Special Agent GS-13
Rating Period: from 4-1-51 to 3-31-52

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

JOSEPH L. SCHMIT

Mr. Schmit has been assigned as No. One Man of the Internal Security Unit since May 15, 1949. His long experience in security matters together with his well-rounded knowledge of Bureau policy enables him to successfully direct and organize the supervision of security investigations in a most satisfactory manner.

In his current assignment he approves signature mail, routes incoming correspondence, and makes decisions with regard to policy matters concerning the various investigations supervised in the Internal Security Unit. He has assisted in directing the investigations of our complicated Smith Act cases, including the Smith Act trial at Baltimore which was successfully concluded on April 1, 1952, with six convictions.

On a number of occasions he has acted as Chief of the Unit in my absence. During those periods he demonstrated without question that he possesses more than the average amount of organizational and administrative ability. His keen insight into Communist matters enables him to reach decisions rapidly and accurately. His practical approach to the day-to-day problems which arise and his simple, clear, detailed instructions to the supervisors with respect to those problems makes him a definite asset to the Bureau. He has appeared on panel forums before both In-Service and New Agents' Classes in the absence of the Unit Chief. In this regard his ready answers to the many questions asked of him clearly indicate his thorough understanding of the Bureau's policy as it relates to security matters.

In view of his all-around ability he has from time to time assisted in reading and approving mail in both Mr. Ladd's and Mr. Belmont's offices. He has exercised excellent judgment at all times in connection with those assignments.

He exhibits an unusual interest in his current assignment and indicative of that interest is the fact that he contributes a great deal of voluntary, unsolocited overtime.

Mr. Schmit makes an excellent personal appearance, has a good personality, meets people easily, and is well liked and respected by his fellow employees. He is rated as an excellent dictator by the stenographers in the Unit.

Mr. Schmit's physical condition is such that he can function adequately on any type of assignment and he is available for transfer anywhere his services may be needed. I feel he is well qualified at this time to handle the duties of an Assistant Special Agent in Charge. He is definitely SAC material on a long-range basis and at this time his possibilities for further advancement in the Bureau appear to be excellent.

By memorandum to Mr. Belmont Mr. Baumgardner has recommended that Mr. Schmit, No. One Man in the Internal Security Unit, be considered for a meritorious increase in salary for the above average manner in which he has carried out his assignment over a period of time. Mr. Belmont concurred and stated that he, Belmont, considers Agent Schmit to be outstanding as to judgment, analytical ability and as an example to supervisors.

Mr. Baumgardner advised that Mr. Schmit has been assigned as No. One Man since 5-15-49. His long experience in security matters together with his well-rounded knowledge of Bureau policy enables him to successfully direct and organize the supervision of security investigations in a most satisfactory manner. In his assignment as No. One Man he reads and approves signature mail, routes incoming correspondence, and makes decisions with regard to policy matters in the Internal Security Unit. In addition to his other duties he assisted in directing the investigations of the Bureau's complicated Smith Act cases, including the Smith Act trial at Baltimore where six communists were convicted on April 1, 1952.

Mr. Baumgardner stated that on a number of occasions Mr. Schmit has acted as Chief of the Unit in the absence of the Unit Chief and during these periods demonstrated without any question that he possesses more than the average amount of organizational and administrative ability. His keen insight into Communist matters enables him to reach decisions accurately and rapidly. In view of his all-around ability he has from time to time been called to assist in reading and initialing mail in both Mr. Ladd and Mr. Belmont's offices and in this connection has exercised excellent judgment at all times.

JUSTIFICATION

It is believed that Mr. Schmit's performance conforms with one of the standards for Superior Accomplishment which provides as

He has been assigned to the Dallas, New York and Oklahoma City Office and was transferred to the Domestic Intelligence Division at the Seat of Government on 7-18-47. Mr. Schmit has been assigned to the Internal Security Unit since July 18, 1947. He is currently performing as No. One Man of the Internal Security Unit and has indicated a desire to receive consideration for advancement in the Bureau's work. He is available for any assignment.

It should be noted that Mr. Schmit's current assignment is comparable to that of an Assistant Special Agent in Charge of a field office. He is thoroughly conversant with Bureau policy and procedure and has acted in charge of the Internal Security Unit in the absence of the Chief. During the times he has acted for the chief of the Internal Security Unit he has clearly demonstrated that he possesses both administrative and executive ability.

Mr. Schmit is definitely an above average Bureau employee and without any question could function adequately as an Assistant Special Agent in Charge at this time.

REALLOCATION

SA Schmit was appointed an Agent on 1-6-41 and is presently in Grade GS-13 at \$8760 per annum having been reallocated to that grade on 7-24-49. He has been serving as a Supervisor in the Domestic Intelligence Division since 7-18-47 and has been #1 Man of the Internal Security Section in that Division since 5-15-49.

During the inspection of the Security Division in November, 1950, Mr. Harbo said SA Schmit made a good impression during the interview, appeared enthusiastic, and gave the impression that he could handle paper work with dispatch. He was considered well suited for his assignment and had the capacity for further development along Administrative lines.

On 12-2-50 he received a letter of censure in connection with the handling of a communication received from former Senator Tydings requesting investigation of two employees of a Shorthand Reporting firm engaged in recording the proceedings of the Senate Committee. It was noted that the action taken by the Bureau in respect to this request differed from that taken on a previous request along the same lines although no basis existed for such a differentiation, and this error apparently occurred because the previous communication had not been located prior to taking action on the second request. SA Schmit had been consulted in this matter and had concurred.

On 1-31-52 Mr. Belmont submitted this Agent's name for consideration on a long-range basis for development.

During March, 1952, his daily average overtime was one hour and fifty-three minutes. On 3-31-52 Mr. Baumgardner rated him Satisfactory and said he successfully directed and organized the supervision of Security Investigations in a most satisfactory manner. On a number of occasions he had acted as Chief of the Section in Mr. Baumgardner's

absence. He had exercised good judgement at all times in connection with reading and approving mail in both Mr. Ladd's and Mr. Belmont's offices, and Mr. Baumgardner felt he was well qualified to handle the duties of an ASAC. He was definitely considered to be SAC material on a long-range basis.

On 5-25-52 he received a meritorious increase in salary in view of the outstanding and extremely important services performed by him over an extended period of time which had distinguished him as far above average.

In June, 1952, Mr. Belmont submitted his name in connection with the Bureau's advancement program and stated he had indicated a desire to receive consideration for advancement in the Bureau work; he was available for any assignment; he was entirely familiar with Bureau policy and procedure and had acted in charge of the Internal Security Section in the absence of the Chief, demonstrating that he possessed both administrative and executive abilities. He was definitely above average and without doubt could function adequately as an ASAC.

With regard to the current inspection of the Domestic Intelligence Division, Inspector Naughten has advised that no information has developed reflecting unfavorably upon Schmit's performance of his duties.

RECOMMENDATION:

It is recommended that SA Schmitt be reallocated to Grade GS-14 at \$9600 per annum.

~~PERSONAL AND CONFIDENTIAL~~

Mr. Joseph L. Schmit
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Schmit:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on July 17, 1952.

This report reflects that you have defective vision of 20/200 in both eyes, corrected to 20/20 which shows a decided decrease in your vision since the time of your last physical examination.

It is also noted that you have a color vision deficiency which has been noted previously and for which the examiner made no recommendations.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

For your further information, the electrocardiogram afforded you was found to be normal.

Sincerely yours,

John Edgar Hoover

MEMORANDUM FOR MR. TOLSON

On March 18, 1953, I saw Special Agent Joseph L. Schmit, of the Domestic Intelligence Division, who has been designated as Assistant Special Agent in Charge at Denver.

Mr. Schmit makes a generally fair appearance.

I outlined to him very generally some of the problems which we have recently had in our Denver Field Division with personnel and the need for a firm but fair handling of our personnel attached to the Denver Office, stressing the fact that there must not be any gossiping among the employees; any employees having any legitimate grounds for complaint or criticism or desirous of making any suggestions should make them to the appropriate official of the Bureau who could handle the same and in doing so there would be no disciplinary action taken, but that if employees indulged in criticism and vicious scandal-mongering among themselves that they will be separated from the service.

I also discussed with him some of the general problems facing the Bureau; namely, the matter of delinquency; the need for thoroughness and completeness in the conduct of our investigations; the need for increasing our informant coverage in both the subversive and criminal fields; the need for more intensive investigative initiative and originality and less paper reporting; the necessity for close supervision of all Resident Agencies; and the meticulous adherence to rules of proper conduct, both officially and privately.

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO : MR. TOLSON

DATE: 3/13/53

FROM : J. P. MOHR

SUBJECT : PERSONNEL CHANGE

There is a vacancy in the position of ASAC in the Denver Division caused by the resignation of ASAC Samuel G. Riley. Special Agent Supervisor Joseph L. Schmit, who is presently #1 Man of the Internal Security Section, Domestic Intelligence Division, is being recommended to fill this vacancy.

There is attached a permanent brief of Mr. Schmit's file which reflects he entered on duty as a Special Agent on January 6, 1941. He is 36 years of age, married and has one child. He is a legal resident of Dallas, Texas and his offices of preference are Dallas and Oklahoma City. He has a Bachelor of Laws Degree. He has served in a number of divisional offices and has been a Supervisor at the Seat of Government in the Domestic Intelligence Division since July 18, 1947. He has an excellent record in the Bureau's service and he has been recommended for advancement. He has also indicated he is ambitious to advance. He was afforded a meritorious increase in salary in May 1952 in view of the outstanding and extremely important services performed by him as a Supervisor in the Internal Security Unit of the Domestic Intelligence Division which had distinguished him as far above average.

I think Mr. Schmit has personal qualifications for the position of ASAC in the Bureau. He is far above average in intelligence and he has demonstrated in the past that he has excellent ability to perform the Bureau's work. Mr. Schmit is short in stature, being 5'7" tall and weighing 160 pounds. The impression he creates during an interview and on contact is very favorable.

RECOMMENDATION

It is recommended that Mr. Schmit be designated ASAC of the Denver Division with no change in grade or salary.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

Name of Employee JOSEPH L. SCHMIT Title Special Agent GS-14

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

JOSEPH L. SCHMIT

During this entire rating period Mr. Schmit has been assigned as No. One Man of the Internal Security Section. He is currently under transfer to the Denver Office as Assistant Special Agent in Charge. In this capacity he has assisted the Section Chief in directing and organizing the supervision of security investigations. His long experience in security matters together with his excellent over-all knowledge of Bureau policy and procedure has made him a most valuable man in this assignment.

In carrying out his duties he approves signature mail in the Internal Security Section, routes incoming correspondence, gives instructions to supervisors, and makes decisions regarding policy matters concerning the various investigations supervised in the Internal Security Section. He is considerably above average in intelligence and his practical approach and keen insight into security matters enables him to reach decisions accurately and rapidly. On a number of occasions he has acted as Chief of the Section in my absence and has demonstrated without question that he possesses both administrative and executive ability. He has the confidence and respect of the supervisors and his clear instructions regarding the work handled in the Internal Security Section has made him a definite asset to the Bureau. He has appeared on panel forums both before In-Service and New Agents' Classes in the absence of the Section Chief and his ready answers to the many questions asked of him clearly indicate his thorough understanding of the Bureau's policy as it relates to security matters.

In view of his outstanding judgment and analytical ability, he has from time to time been called upon to assist in reading and initialing mail in both Mr. Belmont's and Mr. Ladd's offices. He has served most satisfactorily in those assignments.

By letter dated May 20, 1952, he was advised that he was being afforded a superior accomplishment award to become effective May 25, 1952. He was promoted to Grade GS-14, effective July 20, 1952. He was approved to conduct field firearms training for Special Agents on October 24, 1952.

Mr. Schmit is anxious to progress in the Bureau's work, is qualified to handle the most complicated investigations, appears to be in excellent physical condition, and is available for transfer wherever his services may be needed. He is extremely interested in the Bureau's work and as evidence of his interest has consistently contributed a considerable amount of voluntary overtime work without regard for his personal convenience.

This man makes an excellent personal appearance, has an engaging personality, and enjoys the confidence and respect of his fellow employees. He has performed in an all-around excellent manner at all times in his current assignment. I feel that he can definitely be considered as potential SAC material on a long-range basis.

At this time he is entitled to the rating of SATISFACTORY in Grade GS-14.

As you are aware, Special Agent Schmit was recently designated Assistant Special Agent in Charge to the Denver Office. I have noted from a check of his personnel file that he has not previously been designated as an approved Bureau speaker. *NJ-P*
Baumgardner

Mr. Schmit has been assigned to the Internal Security Section in the Domestic Intelligence Division for approximately six years and during the course of that time he has made numerous lectures and appearances before Conferences, In-Service Classes, and New Agents' Classes. I have had the opportunity to observe him and he is, in my opinion, well qualified to operate as a Bureau speaker in every respect. In view of the foregoing, it is recommended that he be designated as an approved Bureau speaker and that this memorandum serve for that purpose.

ACTION:

If you approve, this memorandum should be routed to Assistant to the Director E. B. Nichols for appropriate action.

SUBJECT: CONFERENCE WITH ASAC SCHMIT

I had a conference with Mr. J. L. Schmit who has been designated as ASAC, Denver, Colorado. I thoroughly covered with Mr. Schmit the problems confronting the Identification Division today discussing with him in detail the use by Police Departments of additional record sheet, Bureau Form 1-1.

I also discussed with him the method used by the Identification Division in answering fingerprint cards by Form 1-16. I covered with him the policy of the Bureau in answering fingerprint cards with reference to employees in commercial industry and also civilian defense.

SUBJECT: PERSONNEL ADVANCEMENT

March 20, 1953

In accordance with instructions contained in SAC Letter No. 53412, there are attached write-ups on supervisory personnel of the Domestic Intelligence Division, with comments as to the Agents in question. The write-ups are split into two parts--one pertaining to Agents below Grade GS-13 and the other relative to Agents in Grade GS-13 and above.

I have not commented on the No. One man in each of the four Sections--namely, Joseph L. Schmit (Internal Security), Sterling B. Donahoe (Espionage), John S. Ammarell (Liaison), and O. Eugene Coleman (Loyalty)--inasmuch as these supervisors are currently occupying a position which I consider equal in importance to that of an Assistant Special Agent in Charge in the field. Each of these four men I consider qualified for advancement, but I do feel that they are performing a valuable function here at the Seat of Government.

Mr. Joseph L. Schmit
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Schmit:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on March 30, 1953.

This report reflects that you have defective vision of 20/200 in both eyes, corrected to 20/20 in the left eye but only 20/25 in the right eye. As you are aware, the Bureau requires that you have corrected vision of no less than 20/20 in both eyes. It is therefore suggested that you make the necessary arrangements to have your vision corrected to 20/20 in the right eye and advise the Bureau when this has been done.

For your information, the electrocardiogram afforded you was found to be normal.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

CC-Mr. Belmont

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee JOSEPH L. SCHMIT Title Assistant Special Agent in Charge
Rating Period: from 4/13/53 to 6/13/53

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

JOSEPH L. SCHMIT - ASSISTANT SPECIAL AGENT IN CHARGE
SPECIAL EFFICIENCY REPORT

This is a special efficiency report on Assistant Special Agent in Charge JOSEPH L. SCHMIT, who assumed the duties of ASAC in the Denver Office on April 13, 1953.

Mr. SCHMIT makes an excellent personal appearance. He has a mature personality, creates a very favorable impression upon his initial contact, and has the faculty of growing on one. He dresses neatly, conservatively, and is well-groomed at all times. He has an excellent approach, is a good conversationalist, is cooperative, and is extremely well-liked by employees, who in the short period that he has been assigned in this division as ASAC, have come to respect him and his ability.

Mr. SCHMIT has an excellent attitude, is loyal, dependable, enthusiastic, and definitely willing to equitably share the work-load. He is amenable to suggestion, has both feet on the ground, and during the period that he has been assigned as ASAC has impressed me as being capable in administration, supervision, and handling of personnel.

He is apparently in excellent physical condition. He is possessed of sufficient force and aggressiveness to adequately discharge his responsibility as ASAC. He has immediately taken hold and in the past sixty days has made remarkable progress in his knowledge of the administration of this division.

He has used excellent judgment and has displayed commonsense ability in arriving at proper conclusions. He is possessed of initiative and willingly accepts responsibility and discharges the same without supervision. He plans his work well and has an excellent knowledge of the Bureau's manuals, procedures and policies.

He is accurate and pays attention to pertinent details.

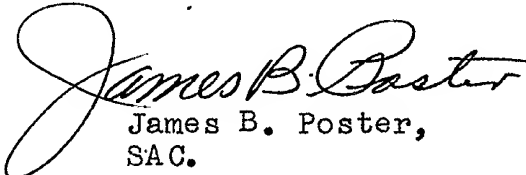

JBP:hg

Mr. SCHMIT is energetic, industrious and can produce an above average amount of work with a minimum of effort.

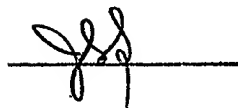

He has impressed me as being basically sound and has definitely impressed the personnel of this division in the same way. He handles personnel excellently, and firmly, and yet obtains excellent cooperation from them. He is capable of making decisions, is emotionally stable, is an excellent influence on the morale of the office, and has exhibited considerable interest in the training of personnel.

I consider Mr. SCHMIT capable of leading a group of Agents on raids and dangerous assignments. His mental makeup is such that he is able to work coolly under pressure and in my opinion can handle any type of assignment in a capable manner.

I am of the opinion that this man has above average administrative and supervisory ability, and is Special Agent in Charge material.

SECURITY - ESPINOGE CONFERENCE
MARCH 18 AND 19, 1954.

My memorandum to you dated December 30, 1953, recommended that we hold another two-day conference with selected representatives of field offices handling the major portion of the Bureau's security work during March, 1954. This matter was considered by the Executives Conference on January 5, 1954, and subsequently approved by the Director.

There is attached for approval a list of field supervisors, ASACs and SACs from 23 field offices designated to attend the conference. The list includes the Legal Attache in Mexico and the Bureau's Liaison Agent in Canada. These field offices were selected because they handle the major portion of the Bureau's security work. In addition, a number of the offices cover active Communist underground organizations, active espionage operations or there are located within the divisions Soviet espionage targets. It is believed that the field supervisors, the ASACs and SACs listed are the field men directly responsible for implementing Bureau policy in security work and that they are, therefore, the logical field representatives to attend this conference which is designed to discuss Bureau policy, field and Bureau problems and to consider the recommendations and suggestions for improvement of the Bureau's security work.

The Legal Attache in Mexico and Bethel in Canada were included because of the importance of these border countries in the U. S. internal security field. It is noted that the Legal Attache in Mexico had already been scheduled for conferences beginning March 17 and In-Service training beginning March 22, 1954. It is believed he should attend this conference and be held over an additional two days for other conferences previously scheduled for March 18 and 19. The San Diego office was included primarily because of problems and work relating to matters handled by the Legal Attache in Mexico.

It is noted that the attached list reflects when the field representatives scheduled for this two-day conference were last at the Bureau and also reflects whether or not they have been scheduled for conferences or In-Service during 1954, as indicated by the Administrative Division. It is noted that several of the personnel listed have been scheduled to come into the Bureau during the latter part of March or April, 1954.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee JOSEPH L. SCHMIT Title Assistant Special Agent in Charge
 Rating Period: from 4-1-53 to 3-31-54

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

JOSEPH L. SCHMIT - ASSISTANT SPECIAL AGENT IN CHARGE
ANNUAL EFFICIENCY REPORT

Assistant Special Agent in Charge JOSEPH L. SCHMIT has been assigned to the Denver Division in the capacity of ASAC since April 13, 1953. Prior to this time he was assigned as supervisor at the Seat of Government.

Mr. SCHMIT makes an excellent personal appearance. He has a mature, pleasing personality, excellent approach, and creates a favorable impression upon his initial contacts which impression continues to grow. He dresses neatly, in good taste, and is very well groomed at all times. He is a good conversationalist and has made many excellent contacts among local law enforcement officials and the public in general in this Division. He is cooperative, loyal, enthusiastic, and is extremely well liked by the employees who respect him and his ability.

ASAC SCHMIT has exhibited resourcefulness, ingenuity, initiative, forcefulness and aggressiveness in discharging his duties as Assistant Special Agent in Charge of this office. He plans his work extremely well and accepts and discharges responsibility without supervision. He is accurate, pays attention to pertinent detail and produces an above average volume of work in a minimum of time. He has put in considerable overtime and has equitably shared the work load in this office. He willingly accepts any assignment.

ASAC SCHMIT has an excellent knowledge of the Bureau's rules, regulations, policies and procedures and has the ability to apply them. He is excellent in dictation and his paper work requires a very minimum of supervision. He is well experienced investigator and has a tremendous knowledge of security work. He is above average in firearms ability and is qualified to lead a group of agents on raids and dangerous assignments. He has performed satisfactorily as a witness.

ASAC SCHMIT is possessed of executive, administrative, and supervisory ability and is far above average. The initiative and resourcefulness which he has displayed in connection with his assignment as Assistant Special Agent in Charge in the Denver Division has caused the personnel of this Division to highly respect his leadership. He is able to handle personnel in a firm manner, to command their respect and to obtain the utmost from them. He makes decisions quickly and has exercised excellent judgment in this respect. He assigns work extremely well and has afforded excellent training to the agents working under his supervision. He is constantly striving to devise new efficient procedures and has made a number of suggestions which resulted in the improvement of the Denver Office.

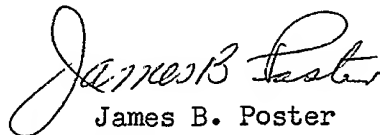

He is emotionally stable, can work extremely well under pressure and has been successful in promoting a high standard of morale in this Division.

ASAC SCHMIT has been utilized on numerous occasions on speaking engagements and has handled these assignments extremely well and I have received a number of commendatory remarks concerning the handling of these assignments.

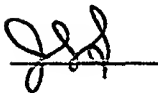

ASAC SCHMIT was commended by the Director by letter dated July 21, 1953, for his direction of the investigation in the extortion case involving ELMER FREDERICK HANSEN.

ASAC SCHMIT is cognizant of the importance of the Bureau's informant program. The supervision of both the criminal informant program and the security informant program are on his desk and he has done an excellent job in supervising the program in this division.

In my opinion ASAC SCHMIT is qualified at this time to act as Special Agent in Charge in a Bureau field office.

ReBulet dated 5/4/54, Laboratory File D-184149 H0.

In accordance with the Bureau's instructions in relet, the handwriting and handprinting specimens of [REDACTED] and [REDACTED] have been submitted by separate letter to the Laboratory under date of 5/5/54.

It has been ascertained that ASAC J. L. SCHMIT approved the letter of transmittal to the Bureau, dated 4/27/54. The letter of transmittal was prepared by stenographer [REDACTED]

This letter has been discussed with ASAC SCHMIT, and he advised me that at the time he approved the letter of 4/27/54, the enclosure was attached to the Laboratory, but he inadvertently failed to notice that the handwriting specimens of [REDACTED] and [REDACTED] were not in the enclosure envelope. ASAC SCHMIT stated he is fully aware of the necessity of closely checking enclosures to the Laboratory, and sincerely regrets this error. He has assured me that every precaution will be taken in the future to prevent a reoccurrence.

I have also discussed this matter with stenographer [REDACTED] and she advised me that she prepared the letter of transmittal, and is fully aware of the necessity of closely checking enclosures being sent to the Laboratory. She has advised she will be doubly cautious in the future and take extreme care to be certain that this does not happen again. 157

Both of these employees sincerely regret the necessity of having the Laboratory call this error to the attention of this office, and I feel that my discussion with them is adequate. Consequently, no further administrative action is recommended.

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- ☒ Outstanding (exceeding excellent and deserving special commendation).
☒ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
☐ Unsatisfactory.
☐ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

JOSEPH L. SCHMIT - ASSISTANT SPECIAL AGENT IN CHARGE
SPECIAL EFFICIENCY RATING

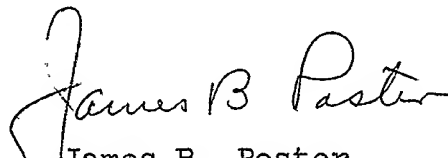

This special efficiency rating is being submitted in view of the transfer of the SAC from the Denver Division.

During the period covered by this report, many outside commitments made it necessary for me to be absent from the office for a considerable part of the time. During this period ASAC SCHMIT has run the office in a most excellent manner. He is highly respected by the personnel of this office. He has their full cooperation, has the ability to handle personnel firmly and yet retain their confidence and good will.

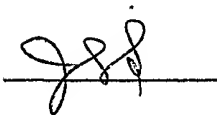

ASAC SCHMIT has exhibited resourcefulness, ingenuity, initiative, forcefulness and aggressiveness in the discharge of his duties during the period covered by this report.

His progress has been excellent and in my opinion he is qualified at this time to act as Special Agent in Charge in a Bureau field office.

ASAC SCHMIT is entitled to a satisfactory rating.

PURPOSE: Recommendation of Outstanding Performance

ASAC JOSEPH L. SCHMIT

The records of the Bureau will reveal that I arrived as incoming SAC of the Denver Division on July 19, 1954. On July 20, 1954, SA [redacted] while on annual leave in Estes Park, Colorado, observed subject [redacted] who had been missing for many months. The Denver office closely followed the whereabouts of [redacted] and the following week prosecutive steps were taken by the Department. On August 1 and 2, 1954, all seven subjects of the Denver phase of instant case were apprehended, six within the Denver Division and one within the Los Angeles Division. This case has been supervised by ASAC JOSEPH L. SCHMIT since December, 1953.

Immediately upon the location of subject [redacted] ASAC SCHMIT briefed me on the case and its ramifications. As arrests grew more imminent, I followed every action of the steps taken by this office very closely with ASAC SCHMIT. I was very much impressed by the detailed knowledge in his possession concerning all subjects and his ability to properly dispatch and control the Agents. He exhibited very fine supervisory ability in handling this case and his judgment was excellent. He devoted all of his time both day and night working toward the successful conclusion of the matter. ASAC SCHMIT worked extremely hard and his efforts were productive. We consulted on all the investigative and policy steps taken and I found his decisions to be excellent. ASAC SCHMIT impressed me as a very capable employee, thoroughly loyal to the Bureau and in view of his very fine work in the COMPROS case, I wish to urgently recommend that the Bureau acknowledge his outstanding performance with a letter of commendation and a meritorious raise.

I am submitting by separate letter further recommendations concerning other personnel of this office who functioned in a highly satisfactory manner in connection with the apprehension of the six subjects within this territory.

~~CONFIDENTIAL AND COMINT~~

Dear Mr. Schmit:

This is to advise you that you have been recommended for a promotion from \$9800 per annum to \$10,000 per annum in Grade GS 14 as an award for superior accomplishment. The effective date of this promotion will follow approval by the Committee on Superior Accomplishment Awards concerning which you will be advised later.

It has afforded me great pleasure to recommend this promotion in view of your splendid supervision of the investigation and apprehension of a number of Smith Act subjects in the Denver Division. I am aware of the many difficulties which were encountered during the investigation of this case, particularly during the days immediately preceding the apprehensions. It is encouraging to note that under your guidance and direction the Bureau was able to follow the activities of the subjects and to apprehend them at the appointed time without incident.

You have certainly demonstrated exceptional judgment, foresight and initiative in your handling of the many ramifications of this case and it is obvious that you have followed every aspect of it with meticulous care and attention to detail. Your performance has brought considerable credit to the Bureau and it is indeed a pleasure to commend you in this manner for the high quality of your services and your sincere devotion to duty.

During the course of the Denver inspection, the confidential expenditures made by the staff of that office were examined. During the time since July 29, 1953, and the present date, SAC JAMES B. POSTER claimed reimbursement for expenditures amounting to \$417.00. which expenditures are being questioned and a fuller explanation than that contained in the files being requested. An itemized statement of these expenditures is being set out hereinafter. All expenditures of this nature from the time of his arrival in Denver in December, 1953, to July, 1954, when he departed were checked.

Attached hereto are copies of the blue slips which went to the Bureau with SAC POSTER's expense vouchers for payment. Likewise, memoranda supporting the expenditures are attached.

Each expenditure is numbered from one to 23 in order that ready reference can be made to them. The copy of the blue slip which went in with the expense voucher and the memorandum of justification for the expenditure carry the corresponding number.

Likewise, it was noted during a review of the confidential expenditures that ASAC JOSEPH L. SCHMITT paid out and claimed the amount of \$15.00. on April 9, 1954. Copy of the blue slip which was submitted with his expense voucher for that month is attached hereto together with a copy of the memorandum of justification.

The tabulation referred to above with reference to SAC POSTER's disbursements and claims are as follows:

TOTAL 417.00

It is requested that ASAC SCHMIT's comments be set out below with reference to his claim of \$15.00. on April 9, 1954.

The comments of SAC CHARLES W. BROWN are requested as to whether he has claimed any reimbursements similar to those noted in this memorandum.

Two copies of this memorandum are being forwarded to SAC POSTER at Milwaukee in order that his comments for justification of the claims of these expenditures can be made. They should be set out below and the memorandum forwarded to the Bureau, attention of the Training and Inspection Division.

ASAC SCHMIT: The Inspector's comments have been noted. The following is set forth with reference to the claim of \$15.00 on 4/9/54, which was submitted on my April expense voucher to the Bureau. This \$15.00, which was submitted by blue slip as a confidential item, was necessarily expended by me in connection with the annual conference of law enforcement officers held on that date in Denver. At that time discussions were held with a number of officers on general crime conditions and special conferences on ITSP. I thereafter invited a number of officers to dinner with me, and the total bill was slightly over \$15.00, excluding my personal dinner. I paid this bill in cash to further police relations, and felt that it was highly desirable I do so, and since it was in connection with official business, I felt that it was a reimbursable item in view of the amount.

This was discussed with SAC POSTER as to the manner in which this should be handled as a confidential item, and accordingly it was handled in the manner as reflected in the Bureau's records. I also wish to state that I have on numerous occasions since my assignment to the Denver Division made similar expenditures of smaller amounts wherein it was necessary for me to maintain and develop good will among police officers to pick up dinner checks. This is the only instance; that is, the \$15.00 item on 4/9/54, wherein reimbursement was requested of the Bureau.

SAC BROWN: I, of course, have had many expenditures in amounts comparable to that set forth above but have made no claim for reimbursement.

SAC POSTER: *I have noted foregoing comments.*

The expenditures enumerated herein were made by me as indicated on official business. I estimate, conservatively, during the past nine years in my capacity as SAC I have spent of my own funds approximately \$5,000, an average of over \$500 per year, on expenditures of this nature. These expenditures have been made in connection with my official contacts with law enforcement officers, public officials and businessmen. The amounts mentioned herein are the only portion of these funds that I have ever submitted to the Bureau for reimbursement.

The expenditures enumerated herein were made as a result of my extending invitations to various people to meet with me on official business to discuss matters of mutual interest. I feel that these expenditures are comparable to funds spent in the development of confidential informants, security informants, confidential sources of information and special service contacts and, as such, made claim for reimbursement and for that reason on my own initiative submitted them.

The average law enforcement officer earns a salary far below mine. Since I was the initiator of the various groups and since the meetings were in furtherance of better relations with the Bureau I felt that the best interests of the Bureau were served by my making expenditures and, in view of these facts, I did so.

It has been necessary to meet in this manner from time to time with various officials in the past. It will be necessary to do so in the future, which I shall continue to do as I have in the past; however, in the future I shall defray expenditures of this nature when necessary out of my own personal funds.

SAC BROWN:

As the Inspector is aware, I have been in the Denver Division only ten days, thus limiting my observations of ASAC Schmit. Based upon the short duration of my knowledge of his performance, I have been very favorably impressed. He presents a very good personal appearance, has a very pleasant personality and appears to be in excellent physical condition.

He appears to have excellent administrative and supervisory ability and definitely SAC material.

RATING: Satisfactory.

INSPECTOR WILLIAMS:

Mr. Schmit assumed duties as ASAC at the Denver Office April 13, 1953. Five of the 11 errors of substance found during the inspection were on his supervisory desk, and in one of these the error was attributed to him. In the case entitled "James Lionel Hinson, was. - Fugitive, TFIS" (Denver file 15-795; Bufile 15-26675), Charlotte was origin. During the period from November 23, 1953, until January 12, 1954, six reports emanated from the Denver Office. This was an excessive number of reports and charged as a delinquency. ASAC Schmit explained this by stating that each report emanated from a Resident Agency which was far removed from the office and far removed from the other Resident Agencies having other leads. He pointed out that he was thoroughly cognizant that all investigative effort in a field division, where at all possible, should be compiled in one report. However, he advised in this fugitive case he desired that the investigative results go forward as soon as possible so he allowed the reports to go out even though it resulted in multiple reporting.

A review of other cases supervised by ASAC Schmit indicated this was an isolated instance and that he is aware of the fact all investigative effort should be compiled in a single report wherever possible. It is recommended no further action be taken in this matter.

A review of the confidential expenditures for the Denver Office reflected one voucher and one blue slip going forward from ASAC Schmit wherein he claimed reimbursement but did not couch his explanation in such words to make it clearer to the supervising officer at the Bureau that the expenditure was made for specific information relating to specific data obtained. (Comment is being made on this in the letter going forward to him concerning the inspection report.)

During the inspection of the Denver Office and while the Inspector was there, a bank robbery occurred in Denver. ASAC Schmit was acting in charge of the office. The robbery was solved within two days and all subjects were arrested. ASAC Schmit handled the investigation and the personnel under him in an excellent fashion.

Also, during the inspection, the Agents of the Denver Office under ASAC Schmit's direction arrested six Smith Act subjects. Two of these were persons whose whereabouts had been unknown. They were located during the time the inspection was being conducted. ASAC Schmit handled this matter in an excellent fashion.

(He makes a good appearance, is a very good speaker and has sufficient force to handle personnel. He is an extremely hard worker and a strict disciplinarian.)

(I feel he is progressing very satisfactorily and consideration should be given to assigning him to additional responsibilities after he has received additional experience as an ASAC.)

DENVER FILE NO. 15-795
SUPFILE 15-26675

INSPECTOR WILLIAMS: This is a pending case, Charlotte origin, assigned to SA WALLACE G. HAGUE and supervised by ASAC SCHMIT. This case has been pending in this office intermittently since January 6, 1953, and the last time it was reopened was on June 22, 1954.

This is a fugitive case in which investigation has been conducted simultaneously by several resident agents within the division as well as agents assigned to headquarters city. During the period from November 23, 1953 to January 12, 1954, the following pending reports were submitted by the Denver Office:

<u>DATE</u>	<u>PREPARED BY</u>
11/23/53	SA [REDACTED]
12/7/53	SA [REDACTED]
12/14/53	SA KENNETH J. BRIDENSTINE
1/6/54	SA WALLACE G. HAGUE
1/11/54	SA [REDACTED]
1/12/54	SA [REDACTED]

The submission of six pending reports in less than two months appears to be excessive. All of the information reported in these reports, if correlated properly, could have been reported in possibly one and not more than two reports. There appears to be no excuse for submitting this many reports; it shows that there has been no attempt to correlate the information obtained and that there has been inadequate supervision afforded the reporting of the results of the investigation in this case.

The Manual of Rules and Regulations, Section IV, Page 10, points out that when investigation is conducted by more than one agent on the same case, the results of the investigation by them is to be prepared in the form of an insert for the report. These should be prepared in rough draft form or dictated on dictation machine belts or cylinders and then correlated into a report by the agent to whom the case is assigned.

INSPECTION REPORT
DENVER DIVISION
INSPECTOR WILLIAMS
JULY 21, 1954
CTF:MMH

Serial 37 in the file is a memorandum prepared by SA ALVIN D. HENITT, dated June 23, 1954, and sets forth the results of investigation conducted by him at Walsenburg, Colorado. The original of this memorandum has been routed to SA HAGUE, and rightly so, in order that the information therein might be incorporated in the report prepared by SA HAGUE. After this information in the memorandum is incorporated in the report, there is no reason for retaining a copy of the memorandum in the file. This memorandum should actually have been prepared in the form of a rough draft insert, only the original being necessary, which after being routed to SA HAGUE for incorporating in his report could be destroyed.

It is noted that a report dated July 6, 1954 was prepared by SA KENNETH J. BRIDENSTINE reflecting the results of investigation conducted by him in Boulder, Colorado. Although this report was prepared after the submission of the memorandum by SA HENITT, the information contained in the latter is not included in this report. It is believed that the failure to incorporate this information in the report is attributable to improper correlation and inadequate supervision.

Since the substantive error in this case is one of supervision and not chargeable to any of the agents conducting investigation, an explanation is being requested only from ASAC SCHMITT concerning the inadequate supervision afforded this case.

ASAC SCHMITT: The comments of the Inspector have been noted.

In connection with these comments, as well as the supervision and correlation in this file, I desire to make the following observations:

I feel that the excessive reporting, as outlined above, was occasioned principally by each of the reports having originated in five separate Resident Agencies in the States of Colorado and Wyoming, hundreds of miles apart. Some also incorporate investigation in headquarters city of Denver. This is definitely an unusual case, and it is definitely not the policy of this office to submit reports on such frequent occasions as listed above except in rare instances. It is noted this is a fugitive case, and, therefore, the leads must be handled expeditiously. The Manual of Rules and Regulations, Section 4, Page 10, which is referred to by the Inspector, calls for inserts for reports where the investigation is conducted by more than one Agent. It is my interpretation of this requirement that this would apply to a more or less major case where there is considerable investigative effort in one locale by a number of Agents, which would lend itself to the preparation of one lengthy report which would be both economical and practical

from a stenographic viewpoint. With respect to the preparation of rough draft inserts, and the failure to maintain a copy of a memorandum submitted by an Agent to the SAC reflecting that a lead is covered, if only one copy is prepared and it is routed to an Agent for inclusion in his report with nothing left to remain in the file to show the lead is covered, it is difficult to see how the case can be properly supervised.

I agree with the Inspector that where practical all investigation conducted by several Agents within one office should be incorporated in one report, and future efforts will be made to avoid the submission of frequent short reports. In this case it was not felt that it would be practical to require that the results of investigation conducted by five Special Agents in widely scattered Resident Agencies to be incorporated in one or two investigative reports.

August 2, 1954, even though the four underground members had used extensive means to conceal their identities, activities and whereabouts, thus making it extremely difficult to locate them and to ascertain their present connection with the Communist Party.

Mr. Joseph L. Schmitt, who is the Assistant Special Agent in Charge of the Denver Office of the Federal Bureau of Investigation, has had the responsibility of supervising this case since December, 1953. He immediately familiarized himself with the background of the subjects and he has consistently displayed outstanding judgment and supervisory ability in directing the over-all investigation. He has been called upon to make important decisions where time was of the essence and his performance in this regard has been exceptional, his decisions being sound in every instance. Immediately prior to the apprehension of the six subjects in the Denver area it was necessary to maintain discreet surveillances in order that their whereabouts would be known when it became time to apprehend them. In this connection Agent Schmitt was responsible for directing large groups of Agents who participated in these surveillances which were conducted under the most difficult circumstances and yet had to be maintained in a discreet manner. His work on this phase of the case was particularly outstanding and deserving of special recognition. The efficiency and dispatch with which he performed are reflected in the fact that all of the subjects were apprehended without incident at the appointed time.

In handling the many ramifications of the complicated investigation Agent Schmitt has contributed many hours of voluntary overtime, at night and on weekends, in order to afford this case the close supervision which it demanded. He met this challenge in an admirable manner, without regard for his personal convenience, and in so doing made many sacrifices. He is considered to have exceeded the normal requirements of his position and to have met one of the standards for a meritorious salary increase which provides as follows:

"Sustained work performance for a period of at least three months of such nature that it merits special recognition for superior accomplishment over and above the normal requirements of the employee's position, provided that his current performance rating is not less than 'Satisfactory.'"

Dear Mr. Hoover:

Joseph L. Schmitt

Upon my return to the Denver Office today, following Annual Leave, I was very pleasantly surprised to receive your letter of August 17, 1954, advising me of an award for superior accomplishment in connection with the apprehension of certain Smith Act subjects in the Denver Division.

I did want to drop this personal note to you to let you know of my deep sense of gratification upon receipt of your fine comments. I trust that my actions in the future will continue to merit your approbation. In addition, I did not want to let this opportunity pass without letting you know of my analysis of the reasons for our successful location of the subjects.

First, my many years of training in the Bureau, under your guidance, wherein accuracy, attention to detail and immediate coverage of important leads, as well as taking advantage of every break presenting itself have been continuously stressed, have played an important part in our successful completion of this phase of the investigation. Secondly, the agent personnel of the Denver Division, particularly those on the Security Squad, gave unstintingly of their time and effort, and handled all of their assignments in a splendid fashion. I was most happy to determine that you had personally seen to it that their efforts were rewarded. Finally, I feel that an exceedingly important part was played in our successful apprehension of these individuals by the excellent guidance and instructions issued by Mr. Belmont and his staff at the Bureau.

FBI File 100-3-74-13

ORIGINAL FILED IN 67-866-1539
During early April, 1954, the Department indicated a desire to proceed with Smith Act prosecutions in the Denver area. The Department indicated as potential defendants Arthur Bary, [redacted]

[redacted] At this time the whereabouts of [redacted] were known to the Denver Office but the remaining four subjects had been operating in the Communist Party underground for an extended period of time and their exact whereabouts was not known.

On July 20, 1954, Arthur Bary was spotted at Estes Park, Colorado, and from that date to August 1, 1954, when the apprehensions were effected, the Denver Office, through extremely difficult physical surveillances and the use of confidential investigative techniques, managed to remain apprised of the whereabouts of Arthur Bary's automobile.

On Sunday afternoon, August 1, 1954, [redacted] and [redacted] were spotted in Denver by an Agent and by managing to keep this pair under surveillance, Agents were successful in locating Arthur Bary and [redacted] and the arrest of these four extremely important Communist Party underground functionaries took place immediately thereafter. One of the other subjects was arrested in Los Angeles on the night of August 1, 1954, and the remaining two were arrested in Colorado on August 2, 1954. Thus, the Bureau was able to successfully apprehend all seven of the Colorado functionaries on whom complaints and warrants had been prepared by Departmental attorneys on July 30, 1954. Following the arrests, the Denver Office developed confidential sources which produced a great amount of extremely valuable underground data.

The excellent work of the Agents involved in this matter resulted in the successful culmination of the case just two days after the compliants and warrants were prepared and resulted in a considerable saving of money and man power to the Bureau.

By memorandum dated August 3, 1954, Special Agent in Charge (SAC) C. W. Brown of the Denver Office recommended that the Bureau consider meritorious salary increases for Assistant Special Agent in Charge (ASAC) J. L. Schmit and Special Agents [redacted] and [redacted]. SAC Brown recommended reallocations from Grade GS-11 to Grade GS-12 for Special Agents James R. Wagoner, [redacted], [redacted] and Lloyd Russell Hashman. SAC Brown also recommended reallocations from Grade GS-10 to Grade GS-11 for Special Agents [redacted] and Willis Bennett, Jr. In addition SAC Brown recommended letters of commendation for ten additional Special Agents of the Denver Office.

RECOMMENDATIONS:

1) The individual write-ups submitted by SAC Brown have been carefully reviewed in the Domestic Intelligence Division and in view of the excellent and outstanding work performed by these Agents resulting in the successful culmination of an extremely important case, this division concurs with the recommendations of SAC Brown. It is recommended that this memorandum be directed to the Administrative Division for appropriate handling.

2) It is also recommended that Mr. E. B. Reddy, Supervisor in Charge of the Smith Act Desk, be commended for his adroit supervision of this matter. Some of the outstanding contributions by Mr. Reddy in the handling of this matter include:

- a) protection of the Bureau's interests in dealings with the Department;

Copy 46

- b) correlation of investigative activities of numerous offices which was climaxed with the successful arrests;
- c) his keen perception of the evidentiary factors in the individual investigations resulting in the development of a conspiracy indictment;
- d) his astute guidance to the field on a day-to-day basis was largely responsible for the smoothness with which the matter was brought to a successful conclusion.

COMMENDATION MATTER

SUMMARY MEMORANDUM

By letters 8-2-54 and 8-3-54 SAC, Denver, recommended commendatory action concerning a number of Special Agents in the Denver Office as a result of their excellent performance in connection with the above-captioned case. The SAC pointed out that these agents participated in the investigation and apprehension of 6 Smith Act subjects in the Denver Division on 8-1-54 and 8-2-54. Four of the subjects were members of the Communist Party underground. A 7th subject was apprehended by the Los Angeles Office 8-1-54. The recommendations of the SAC are summarized as follows:

ASAC JOSEPH L. SCHMITT - He has supervised the case since December, 1953. He had a detailed knowledge of the subjects, displayed splendid judgment and excellent supervisory ability, made sound decisions and worked extremely hard. His direction of large groups of Agents on difficult surveillances was particularly outstanding. SAC recommended letter of commendation and meritorious salary increase. Domestic Intelligence Division concurred.

He entered on duty as an agent 1-6-41, has served as ASAC in Denver since 4-13-53 and is presently in Grade GS-14, \$9800 per annum. Inspection of Denver Office, just completed, reflects he has been handling ASAC duties in very satisfactory manner and no unfavorable information developed. He is eligible to receive a meritorious salary increase at this time.

SA [] - He was responsible for locating 2 of the subjects, who were members of the Communist Party underground, on the street in Denver on 8-1-54 and immediately advised officer in order that successful surveillances could be maintained. He also observed the other 2 members of the underground leaving a Denver hotel and through his alert action made it possible to place them under surveillance until they were apprehended. His performance saved the Government substantial time and funds. SAC recommended letter of commendation and meritorious salary increase. Domestic Intelligence Division concurred.

SA [] - He recognized Communist underground subject at Estes Park, Colorado, on 7-20-54 while on vacation and immediately notified office. Voluntarily returned to duty for annual leave to assist in surveillance and subsequently directed activities of 8 to 14 agents in two-way cars under difficult circumstances. Demonstrated excellent judgment and directed personnel under supervision in exemplary manner during surveillances. His efforts considered instrumental in bringing case to a successful conclusion. SAC recommended meritorious salary increase and letter of commendation. Domestic Intelligence Division concurred.

He entered on duty 7-27-42 and is presently in GS-13, \$8760 per annum. August 2, 1954, even though the four underground members had used extensive means to conceal their identities, activities and whereabouts, thus making it extremely difficult to locate them and to ascertain their present connection with the Communist Party.

Mr. Joseph L. Schmit, who is the Assistant Special Agent in Charge of the Denver Office of the Federal Bureau of Investigation, has had the responsibility of supervising this case since December, 1953. He immediately familiarized himself with the background of the subjects and he has consistently displayed outstanding judgment and supervisory ability in directing the over-all investigation. He has been called upon to make important decisions where time was of the essence and his performance in this regard has been exceptional, his decisions being sound in every instance. Immediately prior to the apprehension of the six subjects in the Denver area it was necessary to maintain discreet surveillances in order that their whereabouts would be known when it became time to apprehend them. In this connection Agent Schmit was responsible for directing large groups of Agents who participated in these surveillances which were conducted under the most difficult circumstances and yet had to be maintained in a discreet manner. His work on this phase of the case was particularly outstanding and deserving of special recognition. The efficiency and dispatch with which he performed are reflected in the fact that all of the subjects were apprehended without incident at the appointed time.

In handling the many ramifications of the complicated investigation Agent Schmit has contributed many hours of voluntary overtime, at night and on weekends, in order to afford this case the close supervision which it demanded. He met this challenge in an admirable manner, without regard for his personal convenience, and in so doing made many sacrifices. He is considered to have exceeded the normal requirements of his position and to have met one of the standards for a meritorious salary increase which provides as follows:

"Sustained work performance for a period of at least three months of such nature that it merits special recognition for superior accomplishment over and above the normal requirements of the employee's position, provided that his current performance rating is not less than 'Satisfactory.'"

ASAC SCHMIT assisted in the Chicago Inspection from September 13, to October 1, 1954.

His assignments included a review of security work, analysis of the security program, a study of the personnel needs on security work, and a review of Detcom plans and the Security Index Program. ASAC SCHMIT also assisted in personnel interviews and in correlation of case write-ups.

ASAC SCHMIT is particularly valuable on an inspection in connection with review of security work because of his extensive experience on the administrative end at the Seat of Government. He also has the benefit of the field point of view and experience in the administration of a field office. I consider him a valuable asset on an inspection team, and fully capable of serving as Number One Man. He has advised me that he is available for general and special assignment, and is interested in advancement in the Bureau.

SUMMARY OF FINDINGSJOSEPH LUKE SCHMIT

James B. Foster assumed duties of SAC at Denver on 12-12-52 and departed on transfer to Milwaukee as SAC on 7-15-54, just prior to inspection. Joseph L. Schmit assumed duties of ASAC 4-13-53. Charles W. Brown assumed duties of SAC 7-19-54.

PHYSICAL CONDITION AND MAINTENANCE..... *SEC... FAIR*

Space, in New Customs House Building, Denver, Colorado, has not changed since last inspection. It is adequate and in very good shape. 66.9 square feet per employee. Office had maintained two sets of waste paper baskets: one marked with an "X" for security trash, and the other for nonsecurity trash. Those for security trash were emptied by office personnel two or three times per week, as necessary. The others were emptied daily by char force. Inasmuch as char force had access to security trash baskets daily, Inspector changed system, doing away with one set of waste baskets and instructing that all trash be disposed of daily by Bureau employees. Emergency bell at reception desk found to be inoperative on 7-19-54 due to blown fuse; Repaired. ASAC states same tested weekly. Doors to supply room in basement equipped with glass panels only. Inasmuch as ammunition and technical equipment stored there, SAC instructed to place iron grillwork over glass panels. Two General Services Administration employees who act as relief char force workers in office had not been investigated in accordance with Bureau regulations. SAC directed to have this done immediately. Five defects noted in 12 automobiles examined on 7-24-54: 3 were minor; 1 consisted of a very low tire; and 1 consisted of a dead battery. All corrected. ASAC stated the dead battery was checked July 21 and found to be in good condition. Believe car left in parking space in garage by attendant with ignition switch on. Gasoline and oil being purchased at garage and service stations. Gasoline can be purchased 12 cents cheaper per gallon and oil 31 cents cheaper per gallon through GSA. SAC directed that same be purchased through GSA whenever possible to effect saving. The one-cylinder type Bilgewater gasoline emergency generator for CW radio had insufficient power to operate the radio.

Generator had been tested on weekly basis to determine if it would work but had not been connected to the radio for approximately three months. SAC directed to have generator repaired locally, if possible, and to take steps for replacement if not possible. FM radio for control of two-way radio cars located in telephone switchboard room. Possibility existed that conversations between cars or from cars to radio station could be heard by unauthorized persons who were talking to switchboard operator via telephone at the same time. Switchboard operator instructed to keep power on loud speaker as low as possible without impairing service and to avoid radio conversations while there was an "open line" on switchboard. Agents instructed, when desiring to call FM radio control station from cars, to announce call letters only and wait to be recognized. There are two alternate outlets for FM radio control station, one in Chief Clerk's Office and one in technical room. These are used during major cases.

INVESTIGATIVE OPERATIONS.....GOOD.

As of 7-1-54 there were 1124 pending active and 172 pending inactive cases for total of 1296. At that time the over-all delinquency was 15.9%. In the following classifications, which are conducive of statistical accomplishments, the delinquencies were materially higher:

<u>Classification</u>	<u>Cases Pending</u>	<u>Delinquency</u>
Theft From Interstate Shipment	22	27.3%
Selective Service Act	58	31%
Interstate Transportation of		
Stolen Motor Vehicle	143	18.2%
White Slave Traffic Act	38	31.6%
Impersonation	17	41.2%
Interstate Transportation of		
Stolen Property	104	28.8%
Unlawful Flight Statutes	33	27.3%
Internal Security	123	23.6%

Stenographic work current. Each stenographer averaged 3.27 pages per hour production. Clerical work current. Three clerical projects remain uncompleted: In the consolidation of indices project there remains one year's work for one employee; in the consolidation of files project there remains two weeks' work for one employee; and in the checking of closed files for missing files there remains two months' work for one employee.

Six Special Agent Accountants assigned Denver. None classified as fully qualified Accountants. Four classified as experienced; and the other two are relatively inexperienced. SAC directed to take steps to place the first four mentioned into fully-qualified category and to allow the two inexperienced Accountants to work with older Agents to obtain experience.

At time of inspection there were 205 fugitive cases pending, of which 14, or 6.8%, had leads which had not been covered within 30 days of their receipt. Of 90 recently closed applicant-type cases deadlines were missed through the fault of the Denver office in 16, or 17.8%. Of these 16, delay letters were not forwarded to the Bureau in 12. SAC directed to give this matter closer administrative attention. Of the 1246 pending cases reviewed, errors of substance were found in 11, for a delinquency of .9%. Errors of form were found in 72 cases, for a delinquency of 5.7%. Of the 231 closed cases reviewed, no errors of substance were found; however, errors of form were found in 23 of these closed files, for a delinquency of 9.96%. Of all errors of form found, 58.4% were attributable to Agents and 41.6% were attributable to clerks.

Security work and security informant program found at the time of the inspection, as compared with that found during the last inspection, is as follows:

<u>Item</u>	<u>Last Inspection (Feb. 1953)</u>	<u>Current Inspection</u>
1. Estimated number C.P. members	136	103
2. Smith Act subjects	5	5
3. Key figures	18	14
4. Key figures missing	1	0
5. Security Index figures	169	178
6. Key figures where no photos obtained	20	17
7. Security Informants	10	13
8. Potential Security Informants	9	8
9. Panel sources	-	5
10. Confidential sources	-	10

Of the 13 security informants, 4 were rated excellent; 6 rated very good; and 3 rated good. Of the 8 potential security informants, 1 was rated very good; 1 rated good; 1 rated fair; and there was insufficient information to rate the other 5. During the inspection the Denver Office arrested 6 Smith Act subjects (One subject was visiting from Salt Lake City). All will be tried in Denver. Apprehensions handled very well.

At time of inspection there were 28 approved criminal informants, as compared with 14 at the time of the last inspection. There were 71 potential criminal informants at the time of the current inspection, as compared with 99 at the time of last inspection. Criminal informant coverage good, both geographically and in criminal classifications. However, program can be improved by increasing coverage in Rock Springs Resident Agency, particularly in White Slave Traffic Act activities, and in the Boulder Resident Agency, particularly in Interstate Transportation of Stolen Motor Vehicle matters and Bank Robbery matters. SAC directed to place emphasis on these weaknesses.

During fiscal year 1953, 258 automobiles were recovered by Denver Office and 123 convictions obtained for index of 47.6%. During fiscal year 1954, 262 automobiles were recovered and 140 convictions obtained for index of 53.4%. Favorable trend.

Theft From Interstate Shipment program has not produced desired results. Only 3 convictions obtained from February, 1953, through June, 1954. To strengthen it, SAC instructed as follows: To assign all cases in headquarters city to 1 Agent so that personal contact program with shippers, carriers, railroad police, and other individuals in related businesses can be accelerated; to disseminate Theft From Interstate Shipment posters; to assign cases immediately upon receipt for investigation; and to give this matter vigorous supervision.

ADMINISTRATIVE OPERATIONS.....GOOD.

SAC Poster supervised 342 criminal-type cases and at time of inspection had a delinquency of 13.7%. ASAC Schmit supervised 420 criminal and security cases and at time of inspection had 16.4% delinquency. Supervisor John H. Broughton supervised 484 criminal and applicant-type cases and had a delinquency of 19.6%. Supervisory personnel not in excess of needs of office at present.

A survey for the Months of April, May and June, 1954, reflected that all Agents spent an average of 1 hour, 30 minutes, or 19%, of their time in the office. This is broken down as follows: Security Squad Agents averaged 29% of their time in the office; Resident Agents averaged 11%; and general investigative Agents averaged 18%. SAC directed to keep time in office to absolute minimum.

Productivity of Agents. During April, 1954, each Agent averaged closing 16.9 cases; during May each averaged closing 14.5 cases; and during June each Agent averaged closing 14 cases. Good showing. All Agents producing.

Review of 3,000 index cards reflected 23 misfiled, for delinquency of .77%. Since March 10, 1954, 17 investigative files have been unaccounted for and Bureau not notified. These could possibly be skips in numbers which should have been, but were not, assigned to individual files. A project is presently underway to determine if these files are really lost or whether they never existed. Instructions left by Inspector that Bureau be advised of the results as soon as this survey is completed. Six minor errors found on No. 1 Register for June, 1954, and same corrected.

memo to SAC Denver 8.26.54

Communications costs. For the Months of July, August, and September, 1953, the communications costs (exclusive of necessary fixed charges) averaged \$13.73 per Special Agent assigned Denver. For a comparable period of April, May and June, 1954, these costs averaged \$15.05 per Special Agent assigned Denver. This trend undesirable and SAC directed to reverse it. Instructions left that all mail going to Agents assigned to a particular Resident Agency go forward in one envelope to effect a postage saving.

Of the 111 stop notices outstanding, 6 minor errors were noted for a delinquency of 5.4%.

Criminal statistical accomplishments for the fiscal year 1953, as compared with those for the fiscal year 1954 are as follows:

<u>Item</u>	<u>Fiscal Year 1953</u>	<u>Fiscal Year 1954</u>
Convictions	250	278
Automobiles Recovered	258	262
Fugitives Apprehended	219	177
Fines, Savings and Recoveries	\$2,046,029	\$567,038

Inspector vigorously brought poor showing in Fugitives Apprehended and Fines, Savings and Recoveries to SAC's attention, directing these trends be reversed.

Review of confidential expenditures from 7/29/53 to present reflected that SAC Poster submitted vouchers containing blue slips which were improperly worded. This matter handled by separate memorandum, and SAC Poster censured by letter 7/30/54. ASAC Schmit submitted one such voucher and blue slip, and the same will be commented upon in the recommended letter going forward to him.

PERSONNEL MATTERSVERY GOOD.

Morale good. No complaints. All employees passed examinations. Good training programs for both investigative and noninvestigative personnel. Of the 56 Agents in Denver Office,

12 had not testified in U. S. District Court; 6 had not testified before a Federal Grand Jury; and 2 had not appeared before a U. S. Commissioner. SAC directed to so assign work that all Agents get this experience.

CRD Adequacy of personnel. 56 Agents. Office requested 4 additional Agents. Inspector points out that on 7/19/54 there were 1069 active pending cases distributed among 53 Agents, an average case load of 20.2 cases per Agent. On 7/1/54 the delinquency was 15.9. Inspector feels no additional Agents should be transferred to Denver. Fifteen stenographers and two typists assigned Denver. Seventeen clerks assigned there. Not counting four clerks who handle file correlation work and radio communications, the clerk-agent ratio is 53.57%. Inspector recommends first clerical vacancy not be replaced and consideration given to not replacing second vacancy.

Average overtime for all Agents for three months of April, May and June, 1954, was 2 hours, 12 minutes per day; for the SAC during the same period it was 2 hours, 35 minutes per day; for the ASAC it was 3 hours, 7 minutes per day; and for Supervisor Broughton it was 1 hour, 58 minutes. This overtime shared equitably.

During period 1/1/54 to 6/4/54 only 11 items forwarded to Bureau for use in publication of "Investigator." Poor showing. SAC directed to submit these weekly in accordance with existing regulations.

Four Agents presently participate in handling 2 security informants who have far-advanced but arrested cases of tuberculosis. Inspector directed these Agents be given periodic examinations to definitely preclude possibility of contraction of this disease.

CONTACTSGOOD.

60 SAC contacts; 47 were known to SAC Poster and 32 developed by him.

Only 1 special service contact in Denver Office, a newspaper publisher. This not adequate. SAC Brown directed to give this matter personal attention to set up an effective and helpful program.

During fiscal year 1954, 102 speeches made: 35 by SAC; 21 by ASAC; and 46 by other Agents. 32 National Academy graduates in Denver territory, 15 of whom hold executive positions. Good police school program with good resulting publicity. Former SAC's relationship with U. S. Attorneys, law enforcement officers, newspaper and influential men in community very good.

RECOMMENDATIONS:

1) SAC James B. ~~Poster~~ now SAC in Milwaukee. Nonveteran. Not on probation. Four of the 11 errors of substance were on his supervisory desk. Good showing made in Interstate Transportation of Stolen Motor Vehicle cases. Poor showing made in Theft From Interstate Shipment cases. He makes good personal appearance, is somewhat blunt and outspoken but is firm in manner and a strict disciplinarian. It is recommended that the attached letter be forwarded to him pointing out the weaknesses and soft spots in the Denver Office in order that he can avoid the same in the future.

2) ASAC ~~Joseph Luke Schmit~~. Nonveteran. Not on probation. Inasmuch as SAC ~~Poster~~ had departed Denver at time of inspection, all memoranda were directed to ASAC Schmit. Five of the 11 errors of substance were found on his supervisory desk. He makes good appearance, being short and stocky. During inspection, the Metropolitan State Bank at Derby, Colorado, was robbed and matter successfully solved. Also, during inspection, 6 Smith Act subjects were arrested in Colorado. ASAC Schmit supervised both these cases and handled himself very well. He is intelligent, a strong administrator, and developing very satisfactorily. Schmit appears to be SAC material and consideration should be given to this promotion after he receives six months additional experience as ASAC. It is recommended the attached letter be forwarded to him.

3) SAC Charles Wilson Brown. Arrived Denver as SAC 7/19/54. He is nonveteran and not on probation. He makes good appearance and is enthusiastic. Although he is not responsible for any of the delinquencies or weaknesses found during the inspection of the Denver Office, it is recommended that the attached letter be forwarded to him pointing out weaknesses of the office and program he should institute to strengthen them.

4) Supervisor John H. Broughton. He assumed position as Supervisor 4/13/53. He is not on probation. Two errors of substance of the 11 found were on his supervisory desk. He makes a very good appearance, is ambitious, and enthusiastic. He is developing very well as a Field Supervisor. Recommended he remain in his present position at present time.

PERMANENT PERSONNEL BRIEFS OF SAC POSTER, ASAC SCHMIT,
AND SAC BROWN ATTACHED.

August 23, 1954

PERSONAL AND ~~CONFIDENTIAL~~

Mr. Joseph L. Schmitt
Federal Bureau of Investigation
254 New Customs House
Denver 2, Colorado

Dear Mr. Schmitt:

Inasmuch as you were Acting Special Agent in Charge for a portion of the time the recent inspection was being conducted prior to the arrival of Special Agent in Charge G. W. Brown, and Assistant Special Agent in Charge to Special Agent in Charge Foster for an extended period of time, you shared the responsibility for conditions found during the inspection. The Bureau wishes to bring certain matters found in this inspection to your personal attention.

The emergency alarm at the reception desk was found to be inoperative on July 19, 1954. The fault was found to be that a fuse had blown. This should have been detected by your office force and such condition should not be permitted to exist. Daily checks should be made to insure that this alarm system is in working condition.

Inasmuch as ammunition and technical equipment are stored in the supply room in the basement of the New Customs House Building, this room should be afforded adequate security. The glass paneling on the door of this room should be reinforced with iron grillwork. The Inspector suggested that General Services Administration be contacted to determine whether they would install such grillwork. If this does not obtain desired results, the cost of placing the grillwork over this glass paneling should be obtained and the Bureau advised in order that appropriate action can be taken. This should be done immediately.

As you know, on April 23, 1954, it was learned that gasoline and oil could be purchased for Bureau equipment considerably cheaper through the General Services Administration.

in Denver than it could through the contract garage or through filling stations. Instructions were issued to Agents to this effect; however, the records for April, May and June, show that very little gasoline and oil were so purchased. The Bureau's advantage was not sufficiently impressed upon the investigative personnel, and there was not a vigorous follow-up of these instructions by you.

The gasoline emergency generator for the operation of the CW radio, when tested, had insufficient power to operate the radio. No check had been made for the three months just prior to the inspection to determine whether it would, in fact, carry this load. This indicates very poor supervision on the part of yourself and the Special Agent in Charge. Instructions left by the Inspector that attempts be made to repair this generator locally should be followed closely. If this is impossible, the Bureau should be advised so that steps can be taken to replace it. In addition, arrangements should be made for frequent checks of the generator to see that it can fully power the CW radio station.

The over-all investigative case delinquency on July 1, 1954, was 15.9 per cent; however, at that time there were the following delinquencies in important classifications from Interstate Shipment cases, 27.3 per cent; Select Act cases, 31 per cent; Interstate Transportation of Stolen Motor Vehicle cases, 18.2 per cent; White Slave Traffic Act cases, 31.6 per cent; Impersonation cases, 41.2 per cent; Interstate Transportation of Stolen Property cases, 28.8 per cent; Unlawful Flight Statute cases, 27.3 per cent, and Internal Security cases, 23.6 per cent. These matters should have been given closer supervision and more vigorous investigative attention not only to lower the delinquencies but to increase your statistical accomplishments.

By letter dated March 10, 1954, the Bureau was advised that 9 files were missing in the Denver Office. During the inspection a check reflected that 17 additional files appeared to be missing but the Bureau had not been advised. You had under way a project to determine whether or not these files were missing or whether they were skips in file numbers which should have been, but were not, assigned to files. The Bureau should have been advised of this matter. The project of searching for

these 17 missing files should be accelerated and completed as soon as possible. The Bureau should then be informed whether these files were in existence and have been lost.

*Handled
Per
T. J. [unclear]*

The number of criminal informants had been increased since the last inspection but your program can be improved by increasing the coverage at the Rock Springs Resident Agency in White Slave Traffic Act activities. It can also be improved in the Boulder Resident Agency in Interstate Transportation of Stolen Motor Vehicle and Bank Robbery matters. It is also noted that the number of potential criminal informants at the time of the current inspection had decreased materially since the time of the last inspection. Although quality rather than quantity is the objective, normally the quantity should show a healthy increase as time goes by. A sound, intelligent program closely followed, will result in more complete informant coverage.

The Theft from Interstate Shipment program in the Denver Office was found to be weak. Only three convictions had been obtained from February, 1953, through June, 1954. The Inspector left the following instructions with reference to this work: assign all cases in Headquarters City to one Agent so that the personal contact program with shippers, carriers, railroad police and other individuals in related businesses can be accelerated; disseminate Theft from Interstate Shipment posters as necessary; assign cases immediately upon receipt for investigation; and give this matter vigorous supervision. I will expect an early improvement in this work.

The Agents of the Denver Office averaged 1 hour 30 minutes, or 19 per cent of their time in the office during the months of April, May and June, 1954. This time in the office was broken down as follows: Security Squad Agents averaged 29 per cent of their time in the office; Resident Agents averaged 11 per cent of their time in the office; and general investigative Agents averaged 18 per cent of their time in the office. The over-all average time should be reduced and kept to a minimum.

A review of 3,000 index cards reflected 23 were misfiled for a delinquency of .77 per cent, which is too high. This finding indicates a carelessness on the part of the clerical staff and loose supervision on the part of the Special Agent in Charge and yourself. This matter should be brought to the attention of all clerical employees and followed closely so that these errors will be decreased.

The communications costs per Agent for the months of April, May and June, 1954, rose above those for a comparable period of July, August and September, 1953. This highly undesirable trend must be reversed.

Statistical accomplishments for the fiscal year 1954 fell far behind those of the fiscal year 1953 in categories of Fugitives Apprehended and Fines, Savings and Recoveries. This is due in part to allowing those classifications which are conducive of statistical accomplishments to become delinquent. You and the Special Agent in Charge will be expected to reverse this trend and to make much better progress during the fiscal year 1955.

A review of confidential expenditures emanating from the Denver Office reflected one made by you in the amount of \$15.00. In this one the blue slip itself and the supporting administrative memorandum did not indicate that payment was actually made for the purpose of securing information needed for official use in connection with a specific case or cases under investigation by the Bureau. If there is any deviation from this requirement, you can be sure that very severe administrative action will be taken.

Of the 56 Agents assigned to the Denver Office, 12 had not testified in U. S. District Court, 6 had not testified before a Federal Grand Jury, and 2 had not appeared before a U. S. Commissioner. Investigative matters should be assigned wherever possible so that all Agents will get this very valuable experience.

With reference to the request for four additional Agents, your investigative case delinquency of 15.9 per cent and your case load of 20.2 pending active cases per Agent at the time of the inspection do not bear this out. No additional Agents will be transferred to the Denver Office at this time and your future needs will be considered in the light of the demands for personnel throughout the field.

During the first five months of the calendar year 1954 the Denver Office submitted only 10 items to the Bureau for possible use in The Investigator. This is a very poor showing. In the future these submissions should be made weekly in accordance with Bureau regulations.

C.R.
Jaw
It is noted that two Agents were recently transferred out of your field division and the condition of your work does not appear to warrant replacing them as is noted above. With this decrease your clerk-agent ratio rises well above 50 per cent. In view of this, the first clerical vacancy which appears in your office should not be filled. In addition to this, consideration should be given to not filling the second vacancy. When this latter condition occurs, you should correspond with the Bureau, pointing out the status of your stenographic and clerical work and making appropriate recommendations concerning the need for additional help.

The Special Service Contact program in the Denver office is weak, it being noted that there was only one such contact at the time of the inspection. This matter should receive immediate attention and a successful and helpful contact program should be instituted.

You must bear in mind other instructions provided you by Inspector Williams for the improvement of the Denver office. Discuss all weaknesses and deficiencies found with Special Agent in Charge C. W. Brown and take immediate steps to correct them. When this is done, the Bureau should be advised.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Hoover:

I did want to take an opportunity to drop this note to you concerning your comments and views as expressed in the recent SAC Letter regarding the Fringe Benefits Bill for federal employees.

In addition to expressing my personal appreciation for your comments, particularly wherein you expressed your appreciation for the voluntary and spontaneous devotion to duty on the part of the Agent personnel, I feel that you would like to know the reaction on the part of the Special Agent personnel in the Denver Division. Upon being advised of your comments, the Agent personnel were unanimous in their expressions of gratitude in view of your personal recognition of their devotion to duty, which you have expressed so many times on previous occasions.

William G. Sullivan was in Denver, Colorado, recently to give a lecture to an Intelligence Conference of the United States Air Force. While there he visited the Denver Office and talked with various Agents. There were so many spontaneous comments from the Agents about the superior administrative talents of ASAC Joseph L. Schmit that Sullivan believes these comments should be called to the Bureau's attention.

In substance the Agents had the following to say about Schmit: (1) he listens to an Agent's problems, analyzes them quickly, goes to the core and comes up with some definite, concrete solutions to be tried; (2) Schmit answers questions directly, clearly and without any equivocation, vagueness, double-talk or ducking and dodging; (3) he has the undefinable "something" which stimulates men to work hard for him and get the work out; (4) Schmit is blunt, frank with his men, pulls no punches, and they like this; (5) he plans work very well, keeps it moving and well distributed; (6) Schmit, on leading a group of men to make an arrest or perform some highly delicate and unorthodox assignment involving official or personal danger, is always the one to act first; to take the initial step assuming full responsibility.

In substance this is what the Agents had to say about ASAC Joseph L. Schmit. It was obvious to Sullivan that they look upon Schmit as being a most superior administrator and leader of men--little in physical stature, but great in ability. He has rarely encountered such enthusiasm about any ASAC in the various field offices he has visited during the last four years. Sullivan adds that the views of these Agents coincide with his own very high evaluation of Joseph L. Schmit, under whom Sullivan worked when Schmit was No. 1 man in the Internal Security Section.

RECOMMENDATION:

Sullivan is of the opinion that ASAC Joseph L. Schmit, while of real value in any field administrative position, would be especially valuable in an administrative position here at the Bureau, one commensurate with his superior talents. Therefore, he recommends consideration be given to matter.

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

SPECIAL PERFORMANCE RATING

Instant performance rating is being submitted in view of the transfer of the above captioned Assistant Special Agent in Charge from the Denver Division to the Chicago Division.

Since the submission of the last performance rating JOSEPH L. SCHMIT has continued his assignment as Assistant Special Agent in Charge of the Denver Division.

ASAC JOSEPH L. SCHMIT presents an excellent personal appearance, has an excellent personality and appears to be in very good physical condition. During the rating period in question SCHMIT has demonstrated excellent initiative, force, resourcefulness and aggressiveness in handling his duties. His contacts with law enforcement officials and business men have been excellent and he handles speaking engagements in a very fine fashion.

During August, 1954, ASAC SCHMIT received a promotion in salary as an award for superior accomplishment. This award arose as a result of the investigation and apprehension of seven Smith Act subjects by the Denver Division. This employee exercised exceptional judgment, foresight and initiative in handling the many ramifications of this involved case resulting in excellent results. He received a letter of commendation from the Director in this regard.

ASAC SCHMIT assisted Inspector B. C. BROWN in connection with an inspection of the Chicago Division during September and October, 1954, and Inspector BROWN pointed out that ASAC SCHMIT was particularly valuable on an inspection in connection with the review of security work. Inspector BROWN stated he considered SCHMIT to be a valuable asset on an inspection and fully capable of serving as Number One Man in this regard.

ASAC SCHMIT has fully demonstrated his ability to handle personnel and to obtain maximum cooperation and results therefrom. He has definite administrative and executive ability and his progress has been considerably above average as an ASAC. This employee has excellent knowledge of the Bureau's rules, regulations and policies and his judgment and foresight may be described as excellent.

JOSEPH L. SCHMIT

/There is no doubt that he can successfully handle the duties of a Special Agent in Charge./

In view of the very fine ability and performance of SCHMIT as ASAC of the Denver Division, he is entitled to a rating of satisfactory in Grade GS-14.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee JOSEPH L. SCHMIT Title Assistant Special Agent in Charge
 Rating Period: from 4-1-54 to 3-31-55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- ☒ Outstanding (exceeding excellent and deserving special commendation).
☒ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
☐ Unsatisfactory.
☐ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

JOSEPH L. SCHMIT
Assistant Special Agent in Charge
GS-14
EOD 1-6-41

Mr. JOSEPH L. SCHMIT was Assistant Special Agent in Charge at Denver, Colorado, until January 10, 1955, when he assumed the duties of ASAC at Chicago. He has direct responsibility for security matters and resident agents, and, in addition, handles numerous other duties normally assigned to an ASAC. Mr. SCHMIT is a leader who gets results and promotes loyalty and morale. Employees under his supervision have confidence in his ability and judgment. He assumes responsibility and has the necessary intelligence and good judgment to successfully and effectively handle complex and involved problems. He has the ability to recognize those matters which have potentiality for trouble and embarrassment. He is willing to make decisions and does not endeavor to shift this responsibility elsewhere.

Mr. SCHMIT is attentive to detail and possesses an excellent knowledge of Bureau procedure. He is cooperative, willing to work, and appreciates the value of teamwork. He maintains discipline and at the same time promotes high morale. He knows how to train, instruct, counsel and guide younger men in the service.

He has handled his duties at Chicago in an excellent manner and there has been considerable progress on security cases since these matters have been under his direction. He has demonstrated that he has the ability to organize, direct and supervise complicated investigations. He has considerable interest and excellent potentiality for administrative advancement.

I am very pleased to have him as an associate and I think he has the necessary capabilities to handle the duties of a Special Agent in Charge in a satisfactory manner.

Mr. Schmit is presently in grade GS-14, \$10,000 per annum, and is being considered for reallocation to grade GS-15, \$10,800 per annum in view of the fact that the SAC of the Chicago Division is in grade GS-16, \$12,000 per annum, which makes it possible to consider Mr. Schmit for a higher grade.

The attached permanent brief of Mr. Schmit's file reflects that he entered on duty January 6, 1941, is 39 years of age, married, and has one child. He has a Bachelor of Laws Degree and is a member of the South Dakota State Bar.

Mr. Schmit served as ASAC of the Denver Division from April 13, 1953, to January 10, 1955, when he was designated ASAC of the Chicago Division. His services in both Denver and Chicago appear to be highly satisfactory. SAC Hostetter has recommended that he be considered for promotion to grade GS-15 based upon his highly satisfactory services in Chicago.

The Chicago Division has not been inspected since ASAC Schmit arrived there but is due for an inspection the latter part of June, 1955, according to the Training and Inspection Division.

RECOMMENDATION

I recommend that no action be taken to reallocate Mr. Schmit until after the inspection.

SECURITY MATTER - C

Rebulet April 15, 1955, referring to a failure to put the necessary explanation in the form of a cover memorandum on report of SA [redacted] Chicago, dated April 4, 1955. It is noted that there is a gap of thirty days between the last investigative date and the date of the report.

b6
b7c

This report was approved by ASAC J. L. SCHMIT who at the time he approved the report noted that there was a thirty-day gap. He was under the erroneous impression that the Bureau's rule required an explanation only if the gap was in excess of thirty days. He is now fully cognizant of the fact that this explanation must be submitted if the gap is thirty days or more. With regard to the failure of ASAC SCHMIT to submit the necessary memorandum in accordance with current Bureau instructions, he has assured me that this will not happen again. A field error form is being placed in his administrative folder in my office. I do not recommend administrative action.

As the Bureau is aware, we have had a heavy stenographic delinquency during the past several weeks in view of recent Election Law specials and the shortage of stenographic personnel. We are gradually alleviating this situation and the Bureau is being kept currently advised by a teletype each two weeks.

26 MAY 18 1955

April 28, 1955

DOMESTIC INTELLIGENCE DIVISION

- I. It was noted at the Bureau that the date of March 4, 1955, was the last investigative date reflected in the "period for which made" in the report of Special Agent Wilson B. Waddy, Chicago, dated April 4, 1955. Bureau instructions require that when a report contains a gap of thirty days or more between the last date in the "period for which made" and the date of the report, a letter of explanation must be attached to the report. No letter was received from Chicago explaining the thirty day gap.
- II. The SAC, Chicago, states that the Bureau is aware of the heavy stenographic delinquency in the Chicago Office; however, ASAC J. L. Schmit, who approved the report, was under the erroneous impression that the Bureau's rule required an explanation only if the gap was in excess of thirty days. ASAC Schmit is now fully cognizant of the Bureau's instructions. The SAC, Chicago, is placing a notation in the folder of ASAC Schmit and recommends no administrative action.
- III. The Domestic Intelligence Division concurs with the action taken by the SAC, Chicago, and it is recommended that no administrative action be taken against ASAC J. L. Schmit inasmuch as the error is of a nonserious nature.

Re Chicago airtel, 6-29-55, and Bureau airtel, 7-14-55.

The Bureau asked for clarification of the verbage in re airtel dated 6-29-55 wherein it is stated that the "first" complete paragraph, page 4, line 1, of report of SA GEORGE STADTMILLER, 6-22-55, is erroneous. The Bureau properly pointed out that the explanation submitted by Stenographer 7-8-55, reflected the error to be in the "third" paragraph.

This is erroneous. The paragraph involved is the third paragraph and not the first. The necessary correction was properly made in referenced report in the file copy in the Chicago office as well as in the copy delivered to the U. S. Attorney. If not already done, the New York office and the Bureau should make the necessary correction in the third paragraph and not in the first paragraph.

Chicago airtel of 6-29-55 was dictated by ASAC J. L. SCHMIT to Stenographer A check of her notes reflected that the word "first" was dictated to her instead of the word "third". This is an obvious error. I recommend that a letter of censure be sent to the ASAC.

ERROR:

Chicago advised by airtel dated 6/29/55 that report of SA George Stadtmiller dated 6/22/55 at Chicago contains an error in that word "not" erroneously included in paragraph 1, line 1, page 4. Chicago instructed by Bureau to fix responsibility for error and furnish recommendations covering same.

Chicago letter of 7/8/55, informed stenographer [] admitted making the error. However, it was noted the error admitted by [] was insertion of word "not" in paragraph 3, line 1, page 4. Chicago requested to clarify this explanation and fix responsibility for the second error.

Chicago letter of 7/18/55 advises the paragraph involved is the third and not the first, the original airtel of 6/22/55, therefore, contains an error in addition to the error in the report.

RECOMMENDATION OF SAC:

No administrative action recommended for SA Stadtmiller since he had no opportunity to read report before it was transmitted to the Bureau.

No administrative action recommended for Relief Supervisor Frank J. Ford since it was impossible for him to determine that the word should not have been included in the report.

Recommended a field error form be placed in the file of stenographer [] who made original error.

Since Chicago airtel of 6/29/55 was dictated and approved by ASAC J. L. Schmit, SAC recommends ASAC Schmit receive a letter of censure.

RECOMMENDATION OF INVESTIGATIVE DIVISION:

Investigative Division concurs with action recommended by SAC, Chicago except with respect to stenographer [] who it is felt should receive a letter of censure inasmuch as the original error in this matter is directly attributable to her. The erroneous inclusion of the word "not" in the report constitutes a substantive error.

INSPECTOR AIDES

Listed below are the Agents assigned to your division who are active Inspector Aides. You should not offer for an inspection assignment any other Agent who may have been formerly an Inspector Aide. This list is subject to change inasmuch as the Bureau is constantly seeking to retain only the best qualified men for Inspector Aide duties and does not desire to use as Aides men who do not wish to advance administratively or men who have been subjected to recent serious administrative action. If any of the Aides listed below do not wish to advance administratively you should forthwith advise the Bureau. Your communication should be marked for the attention of the Training and Inspection Division.

- (e) Two out of 40 pending and closed Civil Rights cases, or 5%, low.

(5) Criminal informants increased from 36 to 37 since last inspection, or 2.8%, while potentials increased from 170 to 304, or 78%; 1 resident agency had no qualified informants, but had 6 potentials under development; 2 out of the 5 resident agencies had no bank robbery informants, qualified or potential; quality of over-all coverage rated by Inspector as from good to very good and SAC instructed to increase utilization of informants.

(6) Increased attention required on security program; 3 top functionaries, 3 key figures and 5 Security Index subjects missing; of these 11 subjects, 3 have been missing since 1951, 3 since 1952, 2 since 1953, 1 since 1954 and 2 since 3/18/55; Security Index reduced from 1546 to 727 persons to be considered for detention in event of serious national emergency, or 53%; of the present 727 Security Index cases, (a) annual reports in 106 cases, or 14.6%, were from 2 to 12 months' delinquent; (b) employment and residence verifications in 34 cases, or 4.7%, were from 30 to 60 days delinquent; and (c) photographs of subjects in 166 cases, or 22.8%, had not been obtained.

Memorandum to Mr. Tolson

(7) Security informants increased from 47 to 48 since last inspection, or 2.1%, while potentials declined from 37 to 17, or 54%; no informants, qualified or potential, in 1 resident agency wherein there are 18 Communist Party members, and in another resident agency wherein there are 14 Communist Party members; no panel sources established in 21 of the 58 front groups and infiltrated organizations active in Chicago area; Inspector rated quality of over-all security coverage as from very good to excellent but stressed need for effective development of additional potentials and panelists.

(8) Forty-seven delays of from 3 to 7 months found in channelizing data from 4 security informant files to investigative files; while important security leads were handled well in advance of channelization, above delays prevented pertinent information from being made available in investigative files for periodic reports required under Security Index program and use in organizational reports covering activities of Communist Party and other subversive groups. SAC directed to intensify security program and notify Bureau of progress made by 12/1/55.

(9) Agent production averaged 5.83 cases closed per month, slightly below record of other offices of comparable size and related problems; time in office between 8:30 a.m. and 5:30 p.m. averaged 35.2%, and exceeds maximum standard of 15% established by the Bureau; agents' voluntary overtime averaged 2 hours and 4 minutes daily and was equitably distributed; SAC instructed to bring time in office in line with the Bureau's desires and to increase production through converting excessive time in office into investigative efforts.

(10) Clerical errors of form low at 3.3%, while those attributable to agents were somewhat high at 6.3%; stenographic and typing production averaged 2.65 pages typed per hour, which is less than last field survey average of 3.36 pages typed per hour; paper work management analysis 8/19-25/55 made by Inspector showed 166 pages of outgoing communications requiring retyping due to 89 errors in dictation and 41 errors in transcription, both high; SAC directed to provide further training of both agent and stenographic personnel.

(11) Criminal statistical accomplishments for 1955 fiscal year showed declines in all categories; record covering first 2 months of 1956 fiscal year showed substantial increase in fines, savings and recoveries but continued declines in convictions, automobile

(12) Net personnel assigned, 324 investigative and 164 noninvestigative employees, considered by both SAC and Inspector to be adequate but not excessive; morale, which was particularly low when Hostetter assumed duty as SAC at Chicago, appeared to have been effectively stimulated by him and was rated by Inspector as high.

(13) Forty-six out of 297 agents contacted have not yet testified in any Federal proceeding, that is, before U. S. Commissioner, Federal grand jury or U. S. District Court; 28 of these agents have had less than 1 year's field service, 14 have had from 1 to 5 years' field experience, and 4 have had over 5 years' field service; 6 agents of less than 3 years' service did not have their assignments rotated every 6 months as required; SAC directed to provide latter agents with diversified experience as Bureau has instructed and to regulate assignments, wherever practicable, of other agents referred to above, to afford them greater opportunity to testify.

(14) Inspector has recommended separately that (a) 34 agents be provided Inspectors Aides' Training when possible; (b) 11 agents be considered for advancement to SOG supervisory positions when possible; and (c) 3 agents be deleted as Inspectors Aides because of their expressed preference for investigative-type duties and lack of interest in administrative assignments.

(15) Clerical applicant eligibility list contained but 1 candidate 8/29/55; SAC was ordered to take realistic and positive approach to recruiting problem so that sufficient eligible candidates will continuously be available to fill clerical personnel needs as they arise.

(16) Office has 6 approved contacts, all of which were developed by prior SACs. Speaking engagements declined from 354 for 1954 to 123 for first 7 months of 1955. Of latter 123 speeches, 10 were made by SAC and 9 by ASAC; they were instructed to handle more of the speaking commitments personally. SAC not acquainted with 5 of the 39 FBI National Academy graduates; was directed to meet them promptly.

Mr. Joseph L. Schmit
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Schmit:

Your attention is directed to the detailed memoranda left with the Special Agent in Charge by Inspector H. C. Van Pelt following his recent inspection of the Chicago Division. Of particular concern to the Bureau are the delinquencies in the security program and in the security informant program, both of which are under your over-all control.

The Bureau is also concerned regarding the failure to meet deadlines promptly, the unfavorable status of the criminal statistical accomplishments, low production, high time in the office of agents during working hours, and the other weaknesses found which are a matter of record in the Chicago Office. You will recall the Bureau's letter to all Special Agents in Charge, Number 36, dated May 26, 1953, advised there is a joint responsibility upon the part of the Assistant Special Agent in Charge and Special Agent in Charge for the effective functioning of each field division. That letter points out that the Bureau looks upon the Assistant Special Agent in Charge as a partner in the administration and operations of the office.

In view of the delinquencies found in certain matters under your over-all control, and because of your partnership responsibility with the Special Agent in Charge for the unfavorable conditions found in certain of the other operations of the Chicago Office, the Bureau is

RECOMMENDATIONS:

(1) It is recommended that appropriate cash awards be given to Special Agents [redacted]

[redacted] Joseph M. Culkin,
Elmer B. Litchfield, Julian C. McGill, A. J. Baumgartner,

[redacted] Howard A. McKamey, [redacted] Bradner C. Riggs,

William F. Roemer, [redacted]

Joseph R. Shea, George W. Stephan and [redacted]

in line with the recommendation of SAC, Chicago as contained in referenced letter and Forms FD-255 dated September 9, 1955. SAC, Chicago evaluated the performance of the above agents as of extraordinary value involving substantial personal danger or risk. Special Agents [redacted] Culkin, Litchfield, and McGill were recommended by SAC, Chicago for cash awards in the amount of \$150. The remainder of the group, totaling 13 agents, were recommended for awards in the amount of \$50 each. It is felt that the evaluation of the accomplishments of the agents recommended for the \$150 cash award under the provisions of the incentive award program should more properly be classified under categories where the personal danger or risks are not the dominant factor in the accomplishment. Under these provisions the accomplishments of the Agents recommended for the \$150 cash award would be classified as of limited application and moderate benefit while the agents recommended for the \$50 cash award should be evaluated as of limited application and minor benefit.

John T. Reilly- No John T. Riley assigned Chicago Div. per movement NEM

(2) It is recommended that consideration be given to the possibility of reallocation of SA John E. Keating from Grade GS-12 to Grade GS-13 in line with the recommendation of SAC, Chicago as set forth in Chicago letter dated August 31, 1955, and as again referred to in referenced Chicago letter of September 9, 1955. If such is not feasible under present Bureau policy, it is recommended that he then be considered for appropriate cash award of \$150.

Memorandum for Mr. Belmont

(3) It is recommended that letters of commendation be forwarded to SAC Hostetter and ASAC Schmit for their excellent leadership and supervision of the underground squad.

(4) It is recommended that a letter of commendation be forwarded to Field Supervisor Carl N. Freyman for his direct supervision of the underground squad.

(5) See addendum on page 5.

DETAILS:

Bureau letter dated September 2, 1955, to Chicago noted that the Bureau desired to take this opportunity to note the excellence of the report of SA [redacted] dated August 15, 1955, entitled "CP, USA, Underground Operations, Chicago Division, IS-C," and the high quality of the information contained therein relating to the national underground apparatus of the CP and the midwestern regional apparatus of the CP underground. SAC, Chicago was requested to submit observations as to commendation for personnel responsible for the development of information contained in referenced report as well as for those who actually prepared the report itself. By letter and Forms FD-255 dated September 9, 1955, SAC, Chicago recommended appropriate cash awards for Special Agents [redacted]

Joseph R. Shea, George W. Stephan and [redacted]

Recommendation was also made for a letter of commendation to Field Supervisor Carl N. Freyman who supervises the underground squad. Referenced Chicago letter of September 9, 1955, pointed out that SA John E. Keating had been recommended for reallocation to GS-13 based on his capable handling of [redacted]

b7D

Memorandum for Mr. Belmont

SAC, Chicago in referenced letter of September 9, 1955, points out that the underground squad was established pursuant to Bureau instructions and following his arrival in the Chicago Division. Up to that time, the penetration of the CP underground by the office was highly unsatisfactory. It is pointed out that effective penetration of the national CP underground apparatus was the result of effective, careful planning and outstanding investigative work performed by personnel on the underground squad as a group effort over a substantial period of time which performance has involved the overcoming of unusual difficulties. SAC, Chicago notes that considerable personal inconveniences were experienced by the Agents comprising the underground squad and that during the ten month period this squad has averaged approximately two hours and twenty minutes voluntary overtime in order to get the job done. Substantial personal risks were involved in developing approximately 25 anonymous sources contacted on over 200 separate occasions. All were conducted without incident reflecting exceedingly good judgment in planning and execution of this unusual investigative technique. Many physical surveillances were conducted on key underground couriers leading to other underground functionaries. These were maintained with full security in view of the extreme security consciousness of subjects involved.

In addition SAC, Chicago states that the high-level information furnished by Chicago Confidential Informant [] [] throughout this period was of considerable assistance in correlating their underground activities. He further noted that this informant is the source of considerable volume of information contained in referenced report of SA Stark.

b7D

In regard to the handling of [] referenced Chicago letter states that the handling of the informant and his valuable contribution were undoubtedly responsible to a great extent for the success of Chicago's penetration of the underground. This informant is handled by SA John E. Keating together with Field Supervisor Carl N. Freyman. SA Keating was recommended for reallocation to GS-13 in Chicago letter dated August 31, 1955.

Memorandum for Mr. Belmont

Agents assigned to the underground squad are responsible for having successfully conducted twenty-five anonymous source contacts on two hundred separate occasions during the period of October, 1954 through August, 1955. In addition, as a result of intensive investigation they were able to effect the arrest of Claude Lightfoot, secretly indicted Smith Act subject. Among other individuals this squad was also responsible for locating and conducting anonymous source contacts on [redacted]

b6
b7C

[redacted] CP, in an underground status, [redacted] missing Smith Act subject, Alfred Wagenknecht, old time Party member operating in the underground, [redacted] Smith Act subject in the underground apparatus, and [redacted] who led to the development of an anonymous source on [redacted] a national CP underground functionary. On one occasion notes located in the waistline of trousers worn by [redacted] [redacted] furnished Chicago with dates of future underground meets.

The underground squad was highly successful in maintaining discreet surveillances on underground subjects despite extreme security measures used by the Party. They were also successful in developing a confidential informant who later acted as a mail drop for underground functionaries. Data obtained therefrom was immediately photographed and acted upon promptly.

The redirection of [redacted] into matters more closely allied to the underground resulted in gaining valuable intelligence data on a national level on the CP underground apparatus. This informant's close relationship to Claude Lightfoot resulted in advance knowledge of the Party's contemplated streamlining of its underground; revealed the original structure of the underground consisting of Bill Norman and Fred Fine in charge of the Eastern Region, Claude Lightfoot and Phil Bart in charge of the Midwestern Region and Robert Thompson and Sidney Stein in charge of the Western Region; determined that the Party was going to retain a "reserve" leadership in the underground and that the future underground apparatus would consist primarily of the so-called "refugee" apparatus. The refugee apparatus was further identified as the underground organization established to protect the Communist fugitives.

Memorandum for Mr. Belmont

The evaluation of the performance of all of the above-mentioned individuals by SAC, Chicago appears to be entirely proper and is such as to warrant recognition by cash awards. In addition it is felt that the direct supervision afforded by SA Carl N. Freyman together with the excellent leadership given to the underground squad by ASAC Schmit and SAC Hostetter is also deserving of consideration for letters of commendation.

ADDENDUM: (AHB:rmw 9/21/55)

In August and September, 1954, the Internal Security Section analyzed over-all Bureau progress in the penetration of the underground in the interest of accelerating coverage in this field and developing new approaches to the hunt for the Comfugs. It was noted that the Chicago Division had excellent live informant coverage but appeared to be affording only sporadic and intermittent efforts to the development of collateral and parallel sources in exploiting all known phases of Communist Party underground activity. Under the direction of Section Chief F. J. Baumgardner, Special Agents W. F. Doyle and [] made a thorough study of the Chicago situation and, by letter dated 9/10/54, instructed Chicago to re-evaluate and redirect its program, pointing out to that office in detail the weaknesses revealed in their study. This guidance stimulated Chicago to take immediate action, resulting in the outstanding sustained record of accomplishments described above. It is believed the parts Messrs. Baumgardner, Doyle, and [] played in this matter should be acknowledged now by commending these men.

Name: JOSEPH L. SCHMIT
Payroll #: 07175
EOD: 1/6/41

Title: ASAC

Grade: GS-14 at \$10,965

Non-Veteran

SAC HOSTETTER: Mr. JOSEPH L. SCHMIT has served as ASAC at Chicago since 1/10/55. He has direct responsibility for all security matters and supervises resident agents. He also handles numerous other duties normally assigned to an ASAC. He has exhibited excellent judgment and has demonstrated above average ability and leadership. He assumes responsibility and has successfully and effectively handled complex and involved problems. He maintains discipline and at the same time promotes high morale. In my opinion considerable progress on security matters has been made under his direction and he has handled all of his duties in an excellent manner. I think he has excellent potential for administrative advancement.

He is a real asset to the service and I am very pleased to have him as an associate.

Rating: Satisfactory

INSPECTOR VAN PELT: Six substantive errors were found in 6 out of 751 pending and closed files reviewed, principally security-type cases, which were under the supervision of supervisors responsible directly to the ASAC, or 80/100 of 1%, low. However, weaknesses in the security program and security informant program, both of which were under Schmit's over-all control, showed further attention is required to bring this work into better condition. Also, delinquencies were found in other operations wherein the ASAC shares a partnership responsibility with the SAC. The latter deficiencies were principally failure to meet deadlines promptly, the unfavorable status of the criminal statistical accomplishments, low production and agents' time in the office too high.

Schmit was observed to work closely with SAC Hostetter and to be an active partner in every sense of the

term in the administration and operations of the office. Schmit makes a good businesslike appearance, is personable and impressed as being intelligent, alert and steady. He displayed a broad knowledge of Bureau policies and procedures, seemed to be eager, aggressive and enthusiastic and appeared to have potential for further development.

Schmit's voluntary overtime 5/1-7/31/55 averaged 3 hours daily compared with the office average of 2 hours and 4 minutes. He seemed to be in good health, said he had no personal problems, advised he liked his present assignment and informed that he is fully available for general and special assignment anywhere.

Inspection summary had a letter attached thereto for the Director's signature, censuring Schmit for weaknesses found in matters under his over-all control and for delinquencies in other operations in which he shares a partnership responsibility with the SAC.
